The Sources Of Instinctive Life:

Towards a Philosophy of Cosmic Life David Bartosch, Attila Grandpierre, Bei Peng, 2023-08-22 Just as the six branches of a snow crystal converge in regular proportions toward their common center the six contributions to this book point toward a future philosophy of cosmic life In this sense this edited volume represents a multidisciplinary and transcultural polylogue of distinguished authors from three continents which aims to establish highly innovative perspectives and open new frontiers of developing philosophical reflections and scientific foundations for the emergence of a common cosmic consciousness for an integral ecology and for a cooperative planetary civilization of humanity John B Cobb Jr uses a process philosophical foundation to describe life as living events expressing novelty and the cosmos as a process of self enriching and self evolving Life Itself Chandra Wickramasinghe unfolds his scientific and philosophical perspective on cosmic life in twelve successive steps offering a wide range of arguments and insights that support an up to date theory of panspermia Attila Grandpierre presents the Cosmic Life Principle and the comprehensive science based upon it that is inextricably linked to the healthy and cooperative civilization to the biological laws of nature to the laws of logic to the uplifting of the well being of people and ecological communities Chunyou Yan introduces the approach of his holographic philosophy according to which the universe must be understood as a vast living entity every aspect of which represents life Bei Peng shows that the proportions of energy meridians in traditional Chinese medicine correspond to musical intervals and on this basis she demonstrates the analogy of the human body to macrocosmic phenomena David Bartosch offers an examination of three important systematic foundations for a poly contextural transcultural philosophy of cosmic life with roots in Greek Chinese South and West Asian and European traditions of thought

The Sources of Instinctive Life R. Palmeri,1966 *The Origin and Growth of the Moral Instinct* Alexander Sutherland,1898 **Worldview Theory, Whiteness, and the Future of Evangelical Faith** Jacob Alan Cook,2021-09-28 The twenty first century has seen energy passing between religious and political worldviews kicking up dust around the identity and conviction based fault lines in American society While many evangelical Christians have developed and deployed a worldview theory to describe and locate themselves within the world's ideological strife Jacob Cook argues this approach has in effect compelled those listening to adopt the world's divisive modes of dealing with difference rather than living out a compelling alternative As a popular framework for theology in recent history world viewing has driven its white evangelical adherents to narrate human lives in this world including their own in ways that warp Christian identity as a personal social and theological reality Through close studies of key white evangelical leaders who utilized the worldview concept for political engagement and cultural transformation over the last century Cook reveals why worldview theory is inept for grasping real human complexity and moreover how it forms a barrier to genuine life together as creatures in a world only the living God can really view In between these studies he draws from current conversations in psychology sociology critical race studies and other fields to deliver a vigorous critique of the worldview concept and its use as well as its underlying impulse and to unmask what world viewing shares with the history and spirit of whiteness This book is for those wrestling with the relationship between Christianity and whiteness in America how the dynamics of whiteness have become transparent and thus contentions and where to go from here if one is to follow Jesus **Physiology of the Soul and Instinct, as Distinguished from Materialism** Martyn Paine,1872 *The Independent* ,1912 *The Problem of Human Life Here and Hereafter* Alexander Wilford Hall,1877 *International Record of Medicine and General Practice Clinics* Edward Swift Dunster, Frank Pierce Foster, James Bradbridge Hunter, Charles Eucharist de Medicis Sajous, Gregory Stragnell, Henry J.
