Pharmacists are healthcare professionals

The United Nations uses the density of pharmacists as a measure of progress on *Sustainable Development Goal target 3.c*.⁴ We face a shortfall of 10 million healthcare workers by 2030.⁵ Some countries have already introduced changes to expand the role of pharmacists.

"Pharmacists... can play significant roles in increasing people's access to primary care."

Jadej Thammatacharee
Secretary General, National Health Security Office,
Thailand, on the country's Universal Coverage Scheme⁶

"Pharmacists are more than capable to deliver (services for common conditions) and divert people away from our emergency departments and GPs."

Steven Miles
Premier of Queensland, Australia⁷

- Impacts -

Pharmacists had administered more than **50%** of France's COVID-19 vaccines by December 2022.⁸

12.1 million COVID-19 tests were performed in Portuguese pharmacies between November 2020 and April 2022.⁹

At least **56 countries** now have pharmacy-based vaccination services.¹⁰

90% of people in the USA live within **5 miles** of a community pharmacy.¹¹

In rural areas, the pharmacist may be the **only available healthcare provider**.¹²

Strong economic evidence supports investment in extended pharmacist services.¹³
