Inaugural Lectures University of Oxford, 1924 [Iris Murdoch's Practical Metaphysics](#) Lesley Jamieson, 2023-07-29 This book explores Iris Murdoch as a philosopher who through her distinctive methodology exploits the advantages of having a mind on the borders of literature and politics in her early career writings pre *The Sovereignty of Good* By focusing on a single decade of Murdoch's early career Jamieson tracks connections between her views on the state of literature and politics in postwar Britain and her approach to the philosophy of mind and moral philosophy Furthermore this close study reveals that far from a stylistic quirk Murdoch's use of metaphors analogies and other literary devices is internal to her methodology Finally rather than asking what Murdoch's views are this work will ask what is Murdoch trying to achieve with her writings and public lectures and how does she go about this By answering the latter question we will have a new strategy for interpreting her writings more generally The book contributes to the growing body of scholarship focusing on Iris Murdoch's philosophical writings and on women in the history of analytic philosophy Mortimer J. Adler, 2009-08-01 In this classic work Adler explores how man differs from all other things in the universe bringing to bear both philosophical insight and informed scientific hypotheses concerning the biological and behavioral characteristics of mankind Rapid advances in science and technology and the abstract concepts of that influence on man and human value systems are lucidly outlined by Adler as he touches on the effect of industrialization and the clash of cultures and value systems brought about by increased communication between previously isolated groups of people Among the other problems this study addresses are the scientific achievements in biology and physics which have raised fundamental questions about humanity's essential nature especially the discoveries in the biological relatedness of all living things Thrown into high relief is humanity's struggle to determine its unique status in the natural world and its value in the world it has created Ultimately Adler's work develops an approach to the separation between scientific and philosophical questions which stands as a model of thought on philosophical considerations of new scientific discoveries and its consequences for the human person **A New**

Physiognomy of Jewish Thinking Aubrey L. Glazer, 2011-03-24 A New Physiognomy of Jewish Thinking is a search for authenticity that combines critical thinking with a yearning for heartfelt poetics A physiognomy of thinking addresses the figure of a life lived where theory and praxis are unified This study explores how the critical essays on music of German Jewish thinker Theodor Wiesengrund Adorno 1903 1969 necessarily accompany the downfall of metaphysics By scrutinizing a critical juncture in modern intellectual history marked in 1931 by Adorno s founding of the Frankfurt Institute for Social Research neglected applications of Critical Theory to Jewish Thought become possible This study proffers a constructive justification of a critical standpoint reconstructively shown how such ideals are seen under the genealogical proviso of recognizing their original meaning Recognition of A New Physiognomy of Jewish Thinking redresses neglected applications of Negative Dialectics the poetics of God the metaphysics of musical thinking reification in Zionism the transpoetics of Physics and Metaphysics as well as correlating Aesthetic Theory to Jewish Law halakhah Routledge Library Editions: Social and Political Thought in the Nineteenth Century Various Authors, 2022-07-30 This set reissues eight books that explore the social and political thought of the nineteenth century The titles in this set originally published between 1943 and 2001 examine several of the important figures of the time including Jeremy Bentham and Thomas Carlyle whilst also examining political movements and the emergence and growth of libertarian thought This set will be of particular interest to students of social and political history
