Third Wave Images Andrew Dazz, 1988 **Performing Image** Isobel Harbison, 2019-04-09 An examination of how artists have combined performance and moving image for decades anticipating our changing relation to images in the internet era In *Performing Image* Isobel Harbison examines how artists have combined performance and moving image in their work since the 1960s and how this work anticipates our changing relations to images since the advent of smart phones and the spread of online prosumerism Over this period artists have used a variety of DIY modes of self imaging and circulation from home video to social media suggesting how and why Western subjects might seek alternative platforms for self expression and self representation In the course of her argument Harbison offers close analyses of works by such artists as Robert Rauschenberg Yvonne Rainer Mark Leckey Wu Tsang and Martine Syms Harbison argues that while we produce images images also produce us those that we take and share those that we see and assimilate through mass media and social media those that we encounter in museums and galleries Although all the artists she examines express their relation to images uniquely they also offer a vantage point on today's productive consumptive image circuits in which billions of us are caught This unregulated all encompassing image performativity Harbison writes puts us to work for free in the service of global corporate expansion Harbison offers a three part interpretive framework for understanding this new proximity to images as it is negotiated by these artworks a detailed outline of a set of connected practices and a declaration of the value of art in an economy of attention and a crisis of representation **Investigating Charmed** Stan Beeler, Karin Beeler, 2007-11-28 In 1998 the series *Charmed* the story created by Constance M Burge of three sisters who discover that they are powerful witches first aired on the WB network The series ran for eight series and into top rating DVDs and has established a continuing presence as cult TV The world of *Charmed* is distinctively one of female solidarity with sisters Piper Prudence Phoebe and with the death of Pru half sister Paige making up the power of three In their crusade against the demonic population of their home city of San Francisco the Halliwell sisters have also inherited their powers and *The Book of Shadows* through the female line The expert contributors to *Investigating Charmed* all of them fans of the show explore its nature as ground breaking TV They debate the status of *Charmed* as third wave feminist narrative as well as its upturning of notions of sexuality and its creation of alternative forms of family life The San Francisco setting is explored as is *Charmed*'s brand of witchcraft and fantasy its mythological antecedents and female heroes Looking also at the fans relationship to the show as well as its novelizations fan fiction and blogs the book on this fantastic magical show concludes with a complete Episode Guide **Growing Up Postmodern** Ronald Strickland, 2002 This collection takes its inspiration from Paul Goodman's *Growing Up Absurd* a landmark critique of American culture at the end of the 1950s Goodman called for a revival of social investment in urban planning public welfare workplace democracy free speech racial harmony sexual freedom popular culture and education to produce a society that could inspire young people and an adult society worth joining In

postmodernity Goodman's enlightenment era vision of social progress has been judged obsolete. For many postmodern critics subjectivity is formed and expressed not through social investment but through consumption; the freedom to consume has replaced political empowerment. But the power to consume is distributed very unevenly and even for the affluent it never fulfills the desire produced by the advertising industry. The contributors to this volume focus on adverse social conditions that confront young people in postmodernity such as the relentless pressure to consume, social disinvestment in education, harsh responses to youth crime, and the continuing climate of intolerance that falls heavily on the young. In essays on education, youth crime, counseling, protest movements, fiction, identity formation, and popular culture, the contributors look for moments of resistance to the subsumption of youth culture under the logic of global capitalism.

Michelle Plott, Lauri Umansky, 2000. *Making Sense of Women's Lives* presents a wide range of writings about women's lives in the United States. Michele Plott and Lauri Umansky have drawn on their experiences as both students and professors to assemble the collection. Seeking to provide as full a sampling from a diverse and intellectually vibrant field as one volume permits, the editors have also chosen writing that makes an enjoyable read. A few of the selections here represent the undisputed classics of the field. More of them constitute simply the works drawn from academic and nonacademic sources alike that could make a difference in understanding what it means to be female in America. *Making Sense of Women's Lives* is intended as the primary text in Women's Studies courses. With that usage in mind, Plott and Umansky have provided brief introductions to each article to help students understand the author's perspectives. Thought and discussion questions follow each selection. The book contains as well numerous Flash Exercises, suggestions for class exercises, and activities. The editors have used these activities in their courses over the past decade in conjunction with readings in this volume and have found that the full complement of materials coalesces into an intellectually powerful introduction to Women's Studies. A Collegiate Press book.

Organizational Communication Dennis K. Mumby, Timothy R. Kuhn, 2005-01-14. *Organizational Communication: A Critical Approach, Third Edition* presents a modern critical perspective while providing a comprehensive survey of theory and research in organizational communication. Authors Dennis Mumby and Timothy Kuhn familiarize students with the field of organizational communication, historically, conceptually, and practically, and challenges them to reconsider their common sense understandings of work and organizations, preparing them for participation in 21st century organizational settings. Linking theory with practice, Mumby skillfully explores the significant role played by organizations and corporations in constructing our identities. The text has been extensively revised, recognizing that the world has changed significantly between editions, including the rise of social media, the increasingly networked character of organizational life, the emergence of AI, and more. Critical analysis of the relationship between communication and organization has never been more important, and the updates provide a current look into the critical issues that students will face as they navigate their work lives.
