Two Fronts A Small Town At War:

Chronicles of a Two-Front War Lawrence Allen Eldridge, 2012-01-18 During the Vietnam War young African Americans fought to protect the freedoms of Southeast Asians and died in disproportionate numbers compared to their white counterparts Despite their sacrifices black Americans were unable to secure equal rights at home and because the importance of the war overshadowed the civil rights movement in the minds of politicians and the public it seemed that further progress might never come For many African Americans the bloodshed loss and disappointment of war became just another chapter in the history of the civil rights movement Lawrence Allen Eldridge explores this two front war showing how the African American press grappled with the Vietnam War and its impact on the struggle for civil rights Written in a clear narrative style *Chronicles of a Two Front War* is the first book to examine coverage of the Vietnam War by black news publications from the Gulf of Tonkin incident in August 1964 to the final withdrawal of American ground forces in the spring of 1973 and the fall of Saigon in the spring of 1975 Eldridge reveals how the black press not only reported the war but also weighed its significance in the context of the civil rights movement The author researched seventeen African American newspapers including the *Chicago Defender* the *Baltimore Afro American* and the *New Courier* and two magazines *Jet* and *Ebony* He augmented the study with a rich array of primary sources including interviews with black journalists and editors oral history collections the personal papers of key figures in the black press and government documents including those from the presidential libraries of Lyndon Johnson Richard Nixon and Gerald Ford to trace the ups and downs of U S domestic and wartime policy especially as it related to the impact of the war on civil rights Eldridge examines not only the role of reporters during the war but also those of editors commentators and cartoonists Especially enlightening is the research drawn from extensive oral histories by prominent journalist Ethel Payne the first African American woman to receive the title of war correspondent She described a widespread practice in black papers of reworking material from major white papers without providing proper credit as the demand for news swamped the small budgets and limited staffs of African American papers The author analyzes both the strengths of the black print media and the weaknesses in their coverage The black press ultimately viewed the Vietnam War through the lens of African American experience blaming the war for crippling LBJ's Great Society and the War on Poverty Despite its waning hopes for an improved life the black press soldiered on

Two Fronts Paul Fridlund, 1984 *Waste and Want* Susan Strasser, 2000-09 Originally published New York Metropolitan Books 1999 *Worcestershire Regiment in the Great War Vol 2* Capt H. FitzM. Stacke, 2013-02-25 Arguably the finest regimental history even written A magnificent publication it is with its profusion of maps illustrations and photos each page of photos contains several The Worcesters was one of the five regiments that had four regular battalions before the war with two special reserve and two territorial battalions By the end of the war another fourteen battalions had been raised for a total of twenty two of which twelve went on active service 9 460 officers and men gave their lives 71 Battle Honours were awarded

and eight VCs one of whom attached to the RFC was the airman Leefe Robinson famous for shooting down a zeppelin

Battalions served on the Western Front in Gallipoli Macedonia Mesopotamia Italy one battalion ended the war in North Persia Appendices provide the Roll of Honour Honours and Awards including Mention in Despatches with date of Gazette for Companion of the British Empire read Commander details of Badges Colours and Distinctions of the regiment and the music for regimental marches Illustrations are by well known artists depicting battle scenes including each VC winning action apart from Leefe s zeppelin After considering various factors explained in his very informative preface the author decided to present this history as one general story in which the number of the battalion concerned is printed in the margin of the pages dealing with its deeds Attention is paid to minor actions such as trench raids which usually find no place in compressed official histories they are recorded in this history The plans illustrate the engagements recorded in the book and are designed to depict the part played by the several battalions in their battles and to enable the visitor to the battlefields to recognise the ground on which each fight took place as much as to make clear the general course of those actions The book opens with a very interesting account of the regiment in the years before the war beginning at the turn of the century and there is a very comprehensive index of 25 pages This is a great piece of work and must rank as one of the finest of the Great War regimental histories many would say the finest and I wouldn t argue
