Vat And Technology:

Vat and Technology Jonathan Ivinson, 2004-12-01 VAT and Technology thoroughly addresses the issues that arose when the VAT and E commerce Directive took effect on 1 July 2003 It describes the VAT implications of the supply of computer hardware and software the VAT treatment of domestic and international IT and telecoms services as well as the VAT consequences of the outsourcing of such services It explains the complex area of VAT and how it applies to new technologies including IT telecommunications and biotechnology *The chemical technology of textile fibres, tr. by C.
