The Working Class at Home, 1790-1940 Joseph Harley, Vicky Holmes, Laika Nevalainen, 2022-02-17 This book examines life in the homes inhabited by the working class over the long nineteenth century These working class homes are often imagined as distinctly unhomely spaces which the inhabitants struggled to fill with even the most basic of furniture let alone acquire the comforts associated with middle class domestic space The concerned reformers of industrialising towns and cities painted a picture of severe deprivation of rooms that were both cramped yet bare at the same time and disease ridden spaces from which their subjects required rescue It is an image which is not only inadequate but which also robs working class people of their agency in creating domestic spaces which allowed for the expression of personal and familial feeling Bringing together emerging scholars who challenge these ideas and using a range of innovative sources and approaches this edited collection presents a new understanding of working class homes
