**Six Residua** Samuel Beckett,1978      **Beckett and Decay** Kathryn White,2011-11-01 The word decay is often used by critics in general reference to Beckett s thematic emphasis and philosophical outlook However this book explores the idea of decay as the fundamental core of Beckett s work dominating it thematically linguistically and artistically Kathryn White explores Beckett s representation of physical decay mental and spiritual deterioration and finally the idea that decay is to be found in language itself This study explores the importance of both theme and form in Beckett s work and considers whether Beckett will in future generations be remembered both for his representation of existence and his innovations in language

*Review of Six Residua* Clas Zilliacus,1979      Rethinking Beckett Lance S Butler,Robin J Davis,1990-02-19 Do we take Beckett seriously enough This study starts from the assumption that we do not and that this arises from an unwillingness to face up to the central philosophical issues implicit in his work By associating Samuel Beckett with the philosophy of Heidegger Sartre and more experimentally Hegel this study attempts to illuminate Beckett with the help of these philosophers on the assumption that his work offers objective correlatives of their central insights      **Short Stories and**
