*Laws of Human Behavior* Donald Pfaff, Sandra Sherman, 2025-03-04 How scientific studies of human behavior can be replicated with the consistency and rigor characteristic of the physical sciences yielding scientific laws In *Laws of Human Behavior* Donald Pfaff and Sandra Sherman argue that many behavioral and neural discoveries verified over the years through precise reliable measurement are tantamount to laws comparable in rigor and replicability to physical laws such as gravity and the second law of thermodynamics Drawing on research in areas including psychophysics various types of conditioning and habit formation and even social behaviors they show how important aspects of the behavioral sciences contribute to laws that should be celebrated now Responding to what some commentators have called a crisis in reliability the authors make a compelling case for the progress that experimental work in areas formerly labeled as soft science has achieved The book is international in scope References range from the early nineteenth century work of Weber to papers published in 2023 In particular the authors cite important accomplishments in the behavioral and neural sciences of the past few decades that support the characterization of these sciences as exact Each chapter of the book has three parts examples of the law s manifestations in everyday life examples of the laboratory science that supports the law and neurobiological results that further support the validity of the law The book also offers clues for understanding where the field of behavioral science is headed The authors intend for the book to be accessible to interested nonscientists **Control** Kevin Balfe, Hannah Beck, 2013-04-30 Examines the culture of violence providing answers to the most commonly heard arguments on gun control *Old Man's War Boxed Set I* John Scalzi, 2014-08-26 New York Times bestselling author John Scalzi takes readers on an epic romp of galactic conquest and exploration in the Old Man s War series This box set includes *Old Man s War* *The Ghost Brigades* and *The Last Colony* Earth itself is a backwater The bulk of humanity s resources are in the hands of the Colonial Defense Force which shields the home planet from too much knowledge of the situation What s known to everybody is that when you reach retirement age you can join the CDF They don t want young people they want people who carry the knowledge and skills of decades of living Old Man s War John Perry did two things on his 75th birthday First he visited his wife s grave Then he joined the army with only the vaguest idea what to expect Because the actual fight is far more difficult than he can imagine and what he will become is far stranger *The Ghost Brigades* At first Jared is a perfect soldier but as another man s memories slowly surface Jared begins to intuit the reasons for their betrayal Time is running out The alliance is preparing its offensive and some of them plan worse things than humanity s mere military defeat *The Last Colony* Retired from his fighting days John Perry and his wife Jane are pulled back into the political arena and into the thick of interstellar politics betrayal and war *Old Man s War Series 1* *Old Man s War 2* *The Ghost Brigades* 3 *The Last Colony* 4 *Zoe s Tale* 5 *The Human Division* 6 *The End of All Things* Short fiction *After the Coup* At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied **Commentaries on the Law of Negligence in All**

being hunted In the novella Twelve Cassie is now twenty three years old and she and her fellow Naturals have taken over running the program that taught them everything they know As a unit they re responsible for identifying new Naturals and solving particularly impossible cases When their latest case brings back a ghost from their past Cassie and the other Naturals find themselves racing against the clock and reliving their own childhood traumas In a small coastal town in Maine there has been a rash of teen suicides or at least that s what the police believe Enter the Naturals Thomas Carlyle's Works: Sartor Resartus.
