Things Working:

This Isn't Working Meghan French Dunbar, 2025-08-05 From leadership expert Meghan French Dunbar a timely and necessary book Deepa Purushothaman author of *The First The Few The Only* that shows business leaders and workers how to boost performance while improving workplaces for women and ultimately everyone Lean in Rise and grind Work smarter not harder Many books for women promise tips and tricks to achieve wealth and success in a business world made by men But on the way to the top most women leaders and many men too struggle with anxiety stress guilt and burnout Playing by the rules in a male dominated game isn't working for anyone This Isn't Working inspires women to reexamine how we do business and shows there are much healthier more fulfilling ways to succeed in the business world that don't require sacrificing ourselves In this book Meghan French Dunbar shares the insights frameworks and practical advice she has learned from over a decade of work with impactful women business leaders from start up founders to multinational CEOs She argues that it's time to move beyond business cultures marked by competition and aggression and instead embrace healthier leadership and workplace practices which are proven to yield better results This Isn't Working provides readers with an empathetic and honest business playbook for improving individual and business performance so that everyone can thrive *Founders at Work* Jessica Livingston, 2008-11-01 Now available in paperback with a new preface and interview with Jessica Livingston about Y Combinator *Founders at Work* Stories of Startups Early Days is a collection of interviews with founders of famous technology companies about what happened in the very earliest days These people are celebrities now What was it like when they were just a couple friends with an idea Founders like Steve Wozniak Apple Caterina Fake Flickr Mitch Kapor Lotus Max Levchin PayPal and Sabeer Bhatia Hotmail tell you in their own words about their surprising and often very funny discoveries as they learned how to build a company Where did they get the ideas that made them rich How did they convince investors to back them What went wrong and how did they recover Nearly all technical people have thought of one day starting or working for a startup For them this book is the closest you can come to being a fly on the wall at a successful startup to learn how it's done But ultimately these interviews are required reading for anyone who wants to understand business because startups are business reduced to its essence The reason their founders become rich is that startups do what businesses do create value more intensively than almost any other part of the economy How What are the secrets that make successful startups so insanely productive Read this book and let the founders themselves tell you **The Complete Works** George MacDonald, 2022-11-13 In *The Complete Works* George MacDonald offers an extensive collection of his literary masterpieces encompassing poetry novels and fairy tales that delve into themes of spirituality morality and the power of imagination MacDonald's writing is characterized by its lyrical prose and deep philosophical underpinnings often reflecting the influence of Romanticism and early Victorian beliefs His narratives frequently intertwine the fantastical with the moral inviting readers to traverse realms where the ethereal meets the tangible making this collection not just a showcase of his literary talent but
