THINK STRAIGHT: Change Your Thoughts, Change Your Life Darius Foroux, 2017-12-21 I know something about you without knowing you I bet you spend A LOT of time in your head You know thinking worrying stressing freaking out call it whatever you want I call it a preoccupied mind And with what 99% of your thoughts are useless William James once the leading psychologist in America and one of the founders of the philosophical school of pragmatism put it best A great many people think they are thinking when they are merely rearranging their prejudices Pragmatism believes that the mind is a tool Your mind should work for you not against you People who don't master their mind don't believe it's possible They say I can't help but thinking these things Well you can TAKE CONTROL of your mind with enough practice I've done it And in THINK STRAIGHT I share exactly how It's a quick read and you can use it to immediately to improve your thinking You have the ability to decide what you think Or you can choose NOT to think And that is one of the most important and most practical things you can learn in life Before I learned that skill I would spend hours and hours inside my head Just think about how much you think I wonder what my boss thinks What happens if I screw up and lose my job What if my business never takes off Does she love me Why does my life suck What if I get cancer I can't finish anything What's wrong with me And the list goes on THINK STRAIGHT reveals the recipe for taking control of your mind so you can improve your life career relationships business I wrote this little book in a way that you can read it more than once And I hope that this book serves as an anchor to you especially during trying times The mind is the most powerful tool on earth Change the way you think And you'll change your life
