

You've got to stop thinking of consciousness as your own. You're only thinking for yourself when you are by yourself. As soon as you are in the presence of others, your consciousness is linked at some level to those others.

## Thinking About Consciousness:

**Thinking about Consciousness** David Papineau, 2002 *Thinking About Consciousness* is a discussion of recent physicalist ideas about consciousness written in an accessible style by David Papineau *Consciousness in Locke* Shelley Weinberg, 2016 Shelley Weinberg argues that the idea of consciousness as a form of non evaluative self awareness runs through and helps to solve some of the thorniest issues in Locke s philosophy in his philosophical psychology and in his theories of knowledge personal identity and moral agency Central to her account is that perceptions of ideas are complex mental states wherein consciousness is a constituent Such an interpretation answers charges of inconsistency in Locke s model of the mind and lends coherence to a puzzling aspect of Locke s theory of knowledge how we know individual things particular ideas ourselves and external objects when knowledge is defined as the perception of an agreement or relation of ideas In each case consciousness helps to forge the relation resulting in a structurally integrated account of our knowledge of particulars fully consistent with the general definition This model also explains how we achieve the unity of consciousness with past and future selves necessary for Locke s accounts of moral responsibility and moral motivation And with help from other of his metaphysical commitments consciousness so interpreted allows Locke s theory of personal identity to resist well known accusations of circularity failure of transitivity and insufficiency for his theological and moral concerns Although virtually every Locke scholar writes on at least some of these topics the model of consciousness set forth here provides for an analysis all of these issues as bound together by a common thread *Philosophy of the Unconscious* Eduard von Hartmann, William Chatterton Coupland, 1893 V 1 The class of books to which the *Philosophy of the Unconscious* belongs is all but unrepresented in our literature but the absence of similar home productions can no longer be held to imply either an inability to comprehend their scope or an indifference to their results To what shall we attribute the welcome accorded of late to certain reproductions and elucidations of the master works of modern Transcendentalism if not to the awakening of a long repressed desire to re examine the foundations of a spiritual fabric for whose stability an instinctive confidence alone made answer To many two attitudes of mind have become insupportable that of total unconcern about fundamental truth and that of unthinking acquiescence in the admission of merely juxtaposed and uncommunicating spheres of positive knowledge and impenetrable nescience PsycINFO Database Record c 2011 APA all rights reserved **Mechanism of Consciousness During Life, Dream and After-Death** Dukkyu Choi, 2011-02-07 Everybody understands the five consciousnesses which are recognized by the five organs eyes ears nose tongue and skin contacting the five objects color light sound smell taste and tactile objects respectively To human being even sentient being that is not all Everybody knows about the sixth consciousness namely mind In Buddhism the sixth consciousness is explained to be generated from contacting between the sixth organ and the sixth object dharma What is the sixth organ What is the sixth object No more detailed explanation in Buddhism yet However this book provides very clear understanding on the sixth organ sixth object and further mechanism of all

consciousnesses Finally you will become to know about Who am I and get Enlightenment In addition this book will contribute to the scientific progress on consciousness One of the author s friends Mr Anjan Sen Patent Attorney in Calcutta reviewed about this book I am really grateful to you for giving me this special opportunity to go through this excellent analytical and logically driven work of yours You deserve special praise and credit for creating such a work inspite of your busy professional schedule which I found not only highly thought provoking but also directional and most importantly has been written in such a lucid form that would make it a ready treat for one and all to read and appreciate the discourse I am overwhelmed by your stupendous efforts

An Essay on the Philosophy of Self-consciousness Penelope Frederica Fitzgerald,1882 The Meaning of Consciousness Carl Gustaf Erickson,1922 Chapters on the Art of Thinking James Hinton,1879 **Being in Time** Genevieve Lloyd,2003-09-02 Genevieve Lloyd s book is a provocative and accessible essay on the fragmentation of the self as explored in philosophy and literature The past is irrevocable consciousness changes as time passes given this can there ever be such a thing as the unity of the self Being in Time explores the emotional aspects of the human experience of time commonly neglected in philosophical investigation by looking at how narrative creates and treats the experience of the self as fragmented and the past as lost It shows the continuities and the contrasts between modern philosophic discussions of the instability of the knowing subject treatments of the fragmentation of the self in the modern novel and older philosophical discussions of the unity of consciousness Being in Time combines theoretical discussion with human experience it will be valuable to anyone interested in the relationship between philosophy and literature as well as to a more general audience of readers who share Augustine s experience of time as making him a problem to himself
