The Second and Third Epistles of St. Paul to the Corinthians James Houghton Kennedy, 1900 *Paul and His Letters* F. B. A. Asiedu, 2019-11-20 Paul the apostle and historian Flavius Josephus spent considerable parts of their careers away from Jerusalem They cultivated Roman audiences under very different circumstances Paul with his Letter to the Romans and Josephus with the writings he produced in Rome after the Jewish War Curiously Paul s last visit to Jerusalem coincided with Josephus s entry into public life a period about which Josephus is deliberately silent In *Paul and His Letters* Thinking with Josephus F B A Asiedu selects themes from Josephus s life to explore Paul s letters and biography that contribute to his uniqueness in Jewish history He highlights for example the need to read Romans 9 11 as aporetic discourse to appreciate Paul as an existential thinker Asiedu considers among other things the authenticity of Paul s letters and offers an alternative to the prevailing scholarly consensus He also maintains that the Pauline collection in the New Testament first took shape in the house of Gaius in Corinth where Paul composed his Letter to the Romans Asiedu also suggests that the traditional view that Luke the physician wrote the Acts of the Apostles is probably a mistake He argues that Titus the Greek the coworker and friend of Barnabas and Paul most likely authored it

The Amazing Colossal Apostle Robert M. Price, 2012-12-03 The story of Paul is one of irony the New Testament depicting him at the martyrdom of Stephen holding the assassins cloaks Then this same Paul is transformed into the biblical archetype for someone suffering for their faith He becomes so entrenched it would appear that he had walked with the Christians all his life that he was the one who defined the faith eventually being called the second founder of Christianity But much of what we think we know about Paul comes from Sunday school stories we heard as children The stories were didactic tales meant to keep us reverent and obedient As adults reading the New Testament we catch glimpses of a very different kind of disciple a wild ascetic whom Tertullian dubbed the second apostle of Marcion and the apostle of the heretics What does scholarship tell us about the enigmatic thirteenth apostle who looms larger than life in the New Testament The epistles give evidence of having been written at the end of the first century or early in the second too late to have been Paul s actual writings So who wrote and rewrote them F C Baur a nineteenth century theologian pointed persuasively to Simon Magus as the secret identity of Paul Robert M Price in this exciting journey

of discovery gives readers the background for a story we thought we knew **The Making of Paul** Richard I. Pervo, The influence of the apostle Paul in early Christianity goes far beyond the reach of the seven genuine letters he wrote to early assemblies Paul was revered and fiercely opposed in an even larger number of letters penned in his name and in narratives told about him and against him that were included in our New Testament and far more often treasured and circulated outside it Richard Pervo provides an illuminating and comprehensive survey of the legacy of Paul and the various ways he was remembered honored and vilified in the early churches *Approaching New Testament Texts and Contexts* Lars Hartman, 2013 In this volume Lars Hartman deals with several major topics Some of the essays are devoted to exegetical and hermeneutical issues beginning with the theoretical considerations concerning what it means to write a commentary These are followed by detailed studies on various aspects of text analysis as a preparation for his commentary on the Gospel of Mark Furthermore Hartman has written groundbreaking articles on baptism especially in regard to the name formula The final essays deal with the Hellenistic context of various New Testament texts and topics for instance the study of Hellenistic Elements in Apocalyptic Texts This volume is an appropriate complement to Lars Hartman's earlier collection on text centered New Testament studies which was published in 1997 **The Expositor**, 1913 The Doubt of the Apostles and the Resurrection Faith of the Early Church J. D. Atkins, 2019-08-02 Why do the Gospels depict the risen Jesus as touchable and able to eat J D Atkins challenges the common view that Luke 24 and John 20 are apologetic responses to docetism by re examining the redaction of the appearance stories in light of their reception among early docetists and church fathers Page 4 of cover Third Corinthians Ken Johnson, 2008-11-07 This little known 2000 year old Greek manuscript was used in the first two centuries to combat Gnostic cults Whether or not it is an authentic copy of the original epistle written by the apostle Paul or not it gives an incredible look into the cults that arise in the last days It contains a prophecy that the same heresies that pervaded the first century church would return before the Second Coming of the Messiah The Sportsman's Year-book C.
