The most accessible expression of Fran ois Laruelle s non philosophical or non standard thought General Theory of Victims forges a new role for contemporary philosophers and intellectuals by rethinking their relation to victims A key text in recent continental philosophy it is indispensable for anyone interested in the debates surrounding materialism philosophy of religion and ethics Transforming Joseph de Maistre s adage that the executioner is the cornerstone of society General Theory of Victims instead proposes the victim as the cornerstone of humanity and the key figure for contemporary thought Laruelle condemns philosophy for participating in and legitimating the great persecutions of the twentieth century and lays out a new vision of victim oriented ethics To do this he engages the resources of both quantum physics and theology in order to adapt a key concept of non philosophy Man in person for a new understanding of the victim As Man in person the victim is no longer exclusively defined by suffering but has the capacity to rise up against the world s persecution Based on this Laruelle develops a new ethical role for the intellectual in which he does not merely represent the victim but imitates or clones it thereby assisting the victim s uprising within thought
