

If EVERYONE sees people, situations,
the world DIFFERENTLY...

Is this a good / bad thing?

Is what we read /see true?

Are there any actual
“facts”?

What factors shape our
perceptions of the world?

*How does perception/perspective affect
everything we know or learn?*

Two Sides Of Perception

Edward Caird

Two Sides Of Perception:

The Two Sides of Perception Richard B. Ivry, Lynn C. Robertson, 1998 Anatomically the central nervous system looks remarkably symmetrical from the relatively simple structures of the spinal cord to the extensively convoluted folds of the cerebral hemispheres At the functional level however there are striking differences between the left and right hemispheres Although popular writings attribute language abilities to the left hemisphere and spatial abilities to the right differences in hemispheric function appear to be more subtle According to Ivry and Robertson asymmetries over a wide range of perceptual tasks reflect a difference in strength rather than kind with both hemispheres contributing to the performance of complex tasks whether linguistic or spatial After an historical introduction the authors offer a cognitive neuroscience perspective on hemispheric specialization in perception They propose that the two hemispheres differ in how they filter task relevant sensory information Building on the idea that the hemispheres construct asymmetric representations the hypothesis provides a novel account of many laterality effects A notable feature of the authors work is their attempt to incorporate hemispheric specialization in vision audition music and language within a common framework In support of their theory they review studies involving both healthy and neurologically impaired individuals They also provide a series of simulations to demonstrate the underlying computational principles of their theory Their work thus describes both the cognitive and neurological architecture of hemispheric asymmetries in perception Proceedings of the Koninklijke Nederlandse Akademie Van Wetenschappen Koninklijke Akademie van Wetenschappen (Netherlands).
