Transition To Egalitarian Development:

Transition to Egalitarian Development Keith Griffin, Jeffrey James, 1981-06-18 Transition to Egalitarian Development Keith Griffin, 1981 **The Nature of the Transition of Egalitarian Development in Less Developed Countries** Hock Tan, 1982 **Studies in Globalization and Economic Transitions** K. Griffin, 1996-10-11 This volume is about development policy since the end of the Cold War One set of essays under the heading of globalization includes a critique of foreign aid proposals for a new framework for development cooperation and an assessment of arguments for regulating world markets within a liberal global economy Another set focuses on various types of economic transitions namely from central planning to a market oriented system from capitalism to socialism and from an inward to an outward oriented strategy Throughout the volume the human development approach is used to illuminate some of the major issues of our time **Factional Competition and Political Development in the New World** Elizabeth M. Brumfiel, John W. Fox, 2003-12-04 This volume examines how factional competition in ancient New World societies led to the development of chiefdoms states and empires *Globalization and the Transition to Egalitarian Development* Robert Pollin, 2003 The single most important fact about the contemporary pattern of global economic integration is that it is being guided by a predominant commitment to neoliberal economic policies Considering both the global North and South this paper examines three basic problems resulting from neoliberal globalization the expansion of the reserve army of labor the Marx problem increased financial instability and corresponding fluctuations in aggregate demand the Keynes problem and a diminishing capacity for governments to promote stability and norms of social solidarity the Polanyi problem The paper advances an alternative egalitarian policy approach for the contemporary era guided by the writings of Keith Griffin **Markets within Planning** Edmund V. K. Fitzgerald, Marc Wuyts, 2012-11-12 Published in 1988 Markets within Planning is a valuable contribution to the field of Economics *Postwar Vietnam* Christine Pelzer White, 1988 This anthology concentrates on domestic questions economic policies and socialist development and ideology The essays subjects include such varied topics as education economics the military leadership and economic assistance and humanitarian aid Human Resources, Employment and Development Samir Amin, 1984-06-14 *Managing the transition to egalitarian development* Keith B. Griffin, Jeffrey James, 1980 **Development by People** Guy Gran, 1983 *Redistribution* University of the Western Cape. Economic Policy Research Project, 1991 Development Studies Institute of Development Studies (Brighton, England), 1979 *Finnish Yearbook of International Law, Volume 23, 2012-2013* Jarna Petman, 2016-01-28 Open to contributions from all over the world and from all persuasions the Finnish Yearbook stands out as a forum for theoretically informed high quality publications on all aspects of public international law *Human Development in the Era of Globalization* Keith B. Griffin, 2006 Honoring Keith Griffin s more than 40 years of fundamental contributions to the discipline of economics the papers in this volume reflect his deep commitment to advancing the well being of the world s poor majority and his

unflinching willingness to question conventional wisdom as to how this should be done Four overarching themes recur in Keith Griffin s work and this book the need to both eradicate poverty and redress inequalities in the distribution of wealth within and among nations the impact of growth on inequality and conversely inequality s impact on growth the political economy of policy making and the need for openness to heterogeneity in both analytic tools and in policy recommendations The volume begins with an introduction by the editors followed by a paper by Keith Griffin In succeeding chapters the contributors explore strategies for reducing poverty and inequality and provide perspectives on issues such as human development the rural urban divide in China and biodiversity and sustainability Students researchers policymakers and NGO analysts exploring issues in development economics development studies alternative economic systems globalization environmental sustainability inequality and well being will find this book of great interest *International Affairs* ,1982

Human Rights and Third World Development George W. Shepherd,Ved Nanda,1985-12-23 The intertwining of development and human rights is the subject of the twelve essays collected by the editors The individual authors extensively examine the commonly held belief that economic development cannot take place in Third World countries without the short term sacrifice of political liberty and demonstrate that there is considerable evidence to the contrary Following a theoretical stage setting that concentrates on the severe power limitations and the dependency of weak Third World states case studies focus on such issues as state terrorism food the right to modernize refugees and support of apartheid in Latin America the People s Republic of China the Middle East and Africa Several essays concern the implementation of human rights and the role of multinational corporations and international nongovernmental organizations in protecting them The final essay considers the international framework of government law and organization as a means for implementing human rights development in the Third World *Development Studies, Register of Research in the United Kingdom* ,1979 *Human Resources, Employment, and Development: Developing countries* International Economic Association.
