Values For Freedom:

Values for Freedom Harry E. Moore, 1972-01-01 *Land Values*, 1918 **Science, Values and Politics in Max Weber's Methodology** Hans Henrik Bruun, 2016-04-01 First published in 1972 this book on Weber's methodological writings is today regarded as a modern classic in its field In this new expanded edition the author has revised and updated the original text and translated the numerous German quotations into English He has also added a new introduction where he discusses major issues raised in the relevant secondary literature since 1972 The author traces the relationship between values and science in Max Weber's methodology of its central aspects value freedom value relation Wertbeziehung value analysis the ideal type and the special problems which pertain to the sphere of politics Weber's thought is presented and discussed on the basis of a meticulous analysis of all available published or unpublished original material The book is indispensable for all serious Weber scholars and provides the general student with a clear accessible and authoritative exposition of major aspects of Weber's methodology **Annual Report**, 1926 *Moral Issues in Military Decision Making* Anthony E. Hartle, 2004 Much has changed in warfare in recent years with America now dominant on the international scene and terrorism the new enemy In light of these changes the need for moral grounding in military actions is a more pressing concern than ever When it was originally published *Moral Issues in Military Decision Making* reflected the concerns posed by nuclear stalemate and the lessons of Vietnam In that highly praised work Anthony Hartle outlined the essential elements of the Professional Military Ethic created for American military forces In this new edition he reexamines the moral foundations for America's military leadership in the post 9 11 era Considering world affairs since the first edition the Gulf War Bosnia Afghanistan Iraq 9 11 and the emergence of the United States as an unrivaled military power Hartle explains how these events have raised ethical issues that differ dramatically from those of the Cold War by the war on terrorism homeland defense asymmetric warfare the proliferation of American military interventions and the UN's role in peacekeeping operations Using meticulously analyzed case studies twice as many as in the first edition he considers such moral dilemmas as torture challenging superior officers use of overwhelming force and responding to fire in the presence of civilian shields In this revision Hartle examines further the status of professional military ethics in light of current affairs changes in the articulation of military values and recent research In a new chapter on human rights he relates moral principles directly to values embedded in the Constitution and argues that overwhelming American military power cannot succeed unless it is accompanied by the moral force of the values it seeks to protect difficulties of applying conventional laws of war and human rights doctrine in military operations Hartle convincingly shows that national security is as much about the preservation of moral principles as it is about the protection of America's citizens and borders His book demonstrates that the American military must continue to observe those principles in order to be effective in its primary mission **The Journal of Psychology** Carl Murchison, 1973 **The Measurement of Economic Value** David Atkins, 1925 **Liberty, Equality,**

and Plurality Larry May, Christine T. Sistare, Jonathan Schonsheck, 1997 Voters as well as ethicists and legal experts are currently debating many of the issues inherent in balancing individual with majority and minority group rights though often there seems to be an inverse correlation between the two May Washington U chairs lively multidisciplinary discussions on the in compatibility of liberty and equality with responsibility being the wild card law morality and limits on liberty in regard to freedom of speech poverty taxation and assisted suicide and equality and the clash of cultures in cases of hate speech and religious freedom vs refusal of medical treatment Annotation copyrighted by Book News Inc Portland OR *The Leader*, 1902 *Annual Reports* Engineering Society of Wisconsin, 1929 *Political Leadership: Readings for an Emerging Field* Glenn D.
