Restoring Safe School Communities Brenda Morrison,2007 *Restoring Safe School Communities* a whole school response to bullying violence and alienation introduces a whole school approach to addressing the problems of bullying and violence in schools Author Brenda Morrison proposes a continuum of responsive and restorative practices for building safe school communities The first most proactive level of practices aims to develop all students social and emotional competencies to enable students to resolve their differences in caring and respectful ways The second level of practices widens the circle of care around the participants Typically this level of response occurs when the problem has become more protracted or has involved and affected a larger number of people and involves other members of the school community stepping in to assist in the resolution of the conflict or concern The third and final level of practices involves the participation of an even wider cross section of the school community including parents guardians social workers and others who have been affected This tertiary level of intervention is normally only used for serious incidents within the school Morrison explains the thinking behind the suggested responses and shows how they can be implemented by practices such as a responsible citizen program and restorative justice circles and conferences
