TIF PROBLEM TEN - 1

Retirement Savings - Essay Questions

1. What are the tax advantages associated with making contributions to an RPP or an RRSP?
2. In almost all cases, making contributions to an RRSP will provide for the deferral of income tax. In some cases, making such contributions may result in avoidance of tax. Explain these statements.
3. Tax advisors generally recommend making RRSP contributions as early in the year as possible. What is the basis for these recommendations?
4. Describe the difference between a defined benefit pension plan and a money purchase pension plan.
5. An individual has shares that have declined in value since he acquired them several years ago. As he is short of cash, he would like to use these shares as a contribution to his RRSP. As his tax advisor, would you approve of this decision?
6. In many cases, investors with various types of investments in their RRSPs also have a portfolio of investments that are held outside of their RRSPs. When this is the case, tax advisors will indicate that, to the degree possible, they should include their debt securities inside of their RRSP, while allocating equity securities to their non-RRSP investment portfolio. What is the basis for this advice?
7. The RRSP Deduction Limit, as defined in ITA 146(1), is not a limit on RRSP contributions. Explain this statement.
8. How is Earned Income defined for purposes of determining the RRSP Deduction Limit?
9. In calculating an individual's Pension Adjustment, it is necessary to have a mechanism for equating contributions in defined contribution plans with benefits earned in defined benefit plans. How does the RRSP legislation deal with this issue? Would you consider this approach to be fair to all taxpayers? Explain your conclusion.
10. An individual's RRSP deduction room is reduced by past service pension adjustments. Describe two situations that would give rise to such adjustments.
11. Describe the circumstances that give rise to pension adjustment reversals.
12. Many individuals do not have sufficient funds to maximize their contributions to both an RRSP and a TFSA. Briefly compare the tax features of these two alternative plans.
13. One of your friends, a very wealthy businessman, has indicated that he never makes contributions to his RRSP in excess of amounts that he can deduct. His reasoning is that this doesn't make sense because, even though the contributions cannot be deducted when they are made, they will be subject to tax when they are withdrawn. Do you agree with your friend? Explain your conclusion, indicating any assumptions that you have made.
14. If an individual wishes to terminate his RRSP, making a lump-sum withdrawal is generally not the best alternative. Describe the disadvantages of such withdrawals.

Test Item File For Social Problems:

Social Problems John J. Macionis, 2005 Macionis's *Social Problems* is the only social problems text that explains how society frames social problems and solutions through politics. The text analyzes social issues and policies using the concepts of sociological theory and the everyday language of politics. This text helps students understand the attitudes and values that define the political spectrum in the United States. Once students know how social problems are defined by our society through politics and how the policies to solve these problems are developed, students are able to become involved in solving social problems through activism and political involvement. **Test Item File [to Accompany] *Social Problems, Third Edition*** John J. Test Item File Combs, Terri T., Robert Kail, 2001-05-24 *Educational Research: the Educationalization of Social Problems* Paul Smeyers, 2009-04-14 Pushing social responsibilities on schools is a process that has been underway for a long time. This phenomenon has been studied more in Europe than in North America and the UK and has been labelled 'Pädagogisierung'. The editors have chosen to use Educationalization to identify the overall orientation or trend toward thinking about education as the focal point for addressing or solving larger human problems. The term describes these phenomena as a sub process of the modernization of society but it also has negative connotations such as increased dependence, patronization and pampering. In this book distinguished philosophers and historians of education focus on educationalization to expand its meaning through an engagement with educational theory. Topics discussed are the family and the child, the learning society, citizenship education, widening participation in higher education, progressive education and schooling movements such as No Child Left Behind. Smeyers and Depaepe's book offers great insights into one of the most ambivalent phenomena of today's educational world and especially educational policy. The contributions assembled represent perspectives of some of the most respected scholars in the field. Their manifold critiques of the educationalization of social problems are rather convincing. Our time is definitely ripe for such analysis. Roland Reichenbach, Center for Educational Studies, University of Basel, Switzerland. This is a challenging, critical and analytical treatment of the tendency of contemporary administrations to overburden educational institutions with the expectation that they will provide the solutions to an increasingly diverse range of social and economic problems. It brings together the theoretical resources of a distinguished international group of philosophers and historians of education and deserves the careful attention of educational policy makers, practitioners and researchers alike.
