True Justice:

Breaking with Athens Christopher A. Colmo, 2005-01-01 This unique interpretation of Alfarabi's thought stresses the ways in which the tenth century Arab philosopher self consciously broke the metaphysical tradition that began with Plato By examining Alfarabi's work as more than an extension or continuation of Greek philosophy Colmo rethinks what medieval philosophy is and challenges almost universal assumptions about the origins of modernity

The End of Law David McIlroy, 2019 The End of Law applies Augustine's questions to modern legal philosophy as well as offering a critical theory of natural law that draws on Augustine's ideas McIlroy argues that such a critical natural law theory is realistic but not cynical about law's relationship to justice and to violence can diagnose ways in which law becomes deformed and pathological and indicates that law is a necessary but insufficient instrument for the pursuit of justice Positioning an examination of Augustine's reflections on law in the context of his broader thought McIlroy presents an alternative approach to natural law theory drawing from critical theory postmodern thought and political theologies in conversation with Augustine

The Church in the Public Ilup Ahn, 2022-08-09 How should the church relate to the public sphere The body politic The state The economic order The natural world For too many Christians and churches being in the world but not of it has resulted in either a theocratic impulse to seize the reins of secular power or a quietistic retreat from the world and its material concerns The Church in the Public shows how this dualism has corrupted the church's social witness and allowed neoliberal and neocolonial ideas to assert control of public and political life Dualism has rendered the church not only indifferent to but also complicitous with the state's bio and power politics Because of this outdated framework of the church's political theology the church has been reluctant to engage in challenging structural and systemic injustice in this world But rather than counseling despair or making a case for Christendom Ilup Ahn argues for a public church one that collaborates and cooperates with other public actors and entities in the promotion of a just social order The book traces this third way back to the apostolic age and offers practical approaches for enacting it today Central to this vision is the analogy of the rhizome that strange unique form of life that lives underground grows horizontally and is capable of regeneration The Church in the Public draws on this image to develop a political theology for engaging the world identifying with the oppressed and binding up the broken

Augustine and Social Justice Teresa Delgado, John Doody, Kim Paffenroth, 2015-01-14 This volume brings into dialogue the ancient wisdom of Augustine of Hippo a bishop of the early Christian Church of the fourth and fifth centuries with contemporary theologians and ethicists on the topic of social justice Each essay mines the major themes present in Augustine s extensive corpus of writings from his Confessions to the City of God with an eye to the following question how can this early church father so foundational to Christian doctrine and teaching inform our twenty first century context on how to create and sustain a more just and equitable society In his own day Augustine spoke to conditions of slavery conflict and war violence and poverty among many others These conditions while reflecting the characteristics of our technological age continue to obstruct our collective efforts to bring about the common good for the global human community The contributors of this volume have taken great care to read Augustine through the lens of his own time and place at the same time they provide keen insights and reflections which advance the conversation of social justice in the present
