The original dietary principles highlighted in the Holy Qur'an. When these two perspectives are combined a powerful and deeply coherent health framework emerges one that aligns perfectly with modern metabolic science and explains why so many people are suffering today. This book is not about religious rules or cultural traditions. It is a universal science-backed guide to eating in harmony with the human body's natural design. The Qur'an is approached as a source of biological wisdom, a user's manual for human physiology revealing nutrition principles that modern research is only now beginning to understand. In This Book You Will Discover: The real human diet before agriculture, processed foods, and modern disease. The exact foods the Qur'an emphasizes and why they form a metabolically perfect foundation. Why modern food systems create inflammation, hormonal damage, and metabolic collapse. How fasting triggers autophagy, cellular repair, fat burning, metabolism, and longevity. How prayer times, circadian rhythm, and metabolic cycles are interconnected. How to rebuild metabolic flexibility through natural ancestral eating. A practical nutrition model you can apply for life: simple, adaptable, and evidence-based. Every chapter combines anthropology, physiology, metabolic science, and Qur'anic insight. There are no fads, no ideology, no guesswork. Only human truth. Why This Book Is Different: Most diet books chase trends: keto, vegan, detoxes, supplements, low fat, low carb. This book returns to something deeper: the diet humanity was biologically created to eat. It explains why industrial foods harm the body, how natural foods restore it, and how fasting properly understood is humanity's oldest and most effective healing tool. Whether you are struggling with weight, inflammation, low energy, brain fog, insulin resistance, hormonal imbalance, or chronic metabolic issues, this book provides a path to renewal grounded in both ancient wisdom and cutting-edge science. A Blueprint for Reclaiming Your Health: The Qur'an Diet offers a complete, logical, and biologically consistent way of eating that supports longevity, mental clarity, metabolic repair, and natural vitality. By aligning nutrition with your physiology and environment, not with modern industry, you can finally restore the balance your body has been craving. This is not another diet trend. It is a return to who we are. A return to the natural order. A return to the foods humans were meant to eat.
