Terror Connection:

Narcotics and Terrorism Robert B. Charles,2004 Explains the changes that have occurred in national security strategies since the attacks on September 11 2001 concerning narcotics and terrorism

Criminals and Terrorists in Partnership Helena Carrapico,Daniela Irrera,Bill Tupman,2017-10-02 The nexus between terrorism and organised crime consists of a strategic alliance between two non state actors who are able to exploit illegal markets threaten the security of individuals and influence policy making on a global level Recent Europol reports have pointed towards the importance of studying the links between organised crime and terrorist groups and have underlined that the nature and extent of these connections have seldom been addressed from an academic perspective Considering the danger that both organised crime and terrorism currently pose to the world the collusion between these two phenomena is of urgent contemporary interest Basing itself on geographical case studies this book contributes to the existing literature in three ways by enriching the empirical knowledge on the nature of the crime terror nexus and its evolution by exploring the impact of the nexus within different economic political and societal contexts and by expanding on its theoretical conceptualization This book was originally published as a special issue of Global Crime

National Counter-terrorism Strategies Robert W. Orttung (Politologe),Andreï Stanislavovich Makarychev,2006 Discusses and compares various reactions to the challenges of mass scale terrorism This volume is grounded in a conceptual presumption that the countries directly affected by terrorism produce different types of responses

Fresh Perspectives on the 'War on Terror' Miriam Gani,Penelope Mathew,2008-07-01 On 20 September 2001 in an address to a Joint Session of Congress and the American people President George W Bush declared a war on terror The concept of the war on terror has proven to be both an attractive and a potent rhetorical device It has been adopted and elaborated upon by political leaders around the world particularly in the context of military action in Afghanistan and Iraq But use of the rhetoric has not been confined to the military context The war on terror is a domestic one also and the phrase has been used to account for broad criminal legislation sweeping agency powers and potential human rights abuses throughout much of the world This collection seeks both to draw on and to engage critically with the metaphor of war in the context of terrorism It brings together a group of experts from Australia Canada the United Kingdom France and Germany who write about terrorism from a variety of disciplinary perspectives including international law and international relations public and constitutional law criminal law and criminology legal theory and psychology and law

370: Undoing the Unjust BlueKraft Digital Foundation,2025-08-08 The most definitive account of how Article 370 was abrogated The inside story of how Prime Minister Narendra Modi turned the seemingly impossible into a reality An eye opening read on the damage Article 370 inflicted on Jammu and Kashmir A book that will interest diverse readers including students scholars and historians Introduced in October 1949 Article 370 turned out to be a long standing permanent temporary provision till 5 August 2019 when it was abrogated by the Parliament of India The article has been subjected to

intense debate and much discussion over the years Those who supported it cited Jammu and Kashmir s unique situation in 1947 while those who opposed it questioned how one nation could have two constitutions two flags and two sets of rules The naysayers also questioned its reductive aspects the denial of basic rights to the poor scheduled caste and scheduled tribe communities and women But whichever side one stood on the conventional belief for sixty five years since Independence was that Article 370 can never be repealed But then came 5 August 2019 when the supposedly impossible became a reality 370 Undoing the Unjust A New Future for J K takes the reader through the minute and meticulous planning that ensured seamless execution of the decision Removing Article 370 not only needed strategic planning and political will but also mammoth logistical preparations Every single aspect would have to be addressed or else the region especially the Kashmir valley would plunge into chaos The book offers a glimpse of Prime Minister Narendra Modi s thought process insights into his leadership and most importantly his vision for Jammu and Kashmir By ensuring that Article 370 is repealed Prime Minister Modi altered the course of history But along with that he also fulfilled the decades old commitment of the Bharatiya Janata Party Deeply researched anecdotal and unputdownable this book fills the gaps on scholarship around an iconic moment of Indian history

Saudi Arabia and the Global Islamic Terrorist Network S. The Marketing of Terrorism. Analysing the Use of Social Media by ISIS Lisa Wiechert,2017-06-02 Social media has played a central role in the digital era for almost a century influencing almost all aspects of life The use of social media in warfare is threatening not only one country but the whole global community is a recent development The famous speech by Abu Muhammad al Adnani on social media inspired the bloody month of Ramadan in 2016 and showed the deadly power of social media inspired attacks and what the Islamic State is capable of achieving Although the terrorist group has lost territory over the last few weeks of combat both in Syria and Iraq and is on the edge of losing their main capital Mosul IS still remains a hybrid threat Consisting of military powers and an unmatched affinity of using social media as a cyber war weapon IS will continue to be a severe danger to the global community This book aims to foster a deeper understanding of the use of social media for recruiting efforts by the so called Islamic State IS and to analyse its propaganda methods in order to develop possible countermeasures A special focus will be put on the method of recruitment of young Western foreign fighters These individuals are the easiest to recruit for ISIS and pose the greatest risk to the global community especially in regards to home grown terrorism and so called lone wolf attacks Since this area of research is very new and quickly evolving the field

still needs extensive research It is difficult to analyse the use of social media content by the Islamic State due to limited information access and flow encryption propaganda verification and inconsistency The Islamic State is a military threat on the battleground as well as a potential cyber threat for the international community Despite these challenging circumstances this book will provide a new theoretical model based on the marketing model of a customer journey in connection with the main principles of storytelling Ultimately this research work will try to provide experts with a new and modern approach of analysis as a base for possible counter measures to weaken and combat the current threat posed by the Islamic State From the text Islamic State Terrorism Social Media Propaganda Institutions Radicalisation The Enemy of My Enemy George Michael,2006 In the violent world of radical extremists the enemy of my enemy is my friend This study reveals how that precept plays out in the unexpected bonding between militant Islam and the extreme right in America and Europe It provides an insightful and sane look at the possibilities for collaboration between these groups Caribbean Security in the Age of Terror Ivelaw L. Griffith,2004 **Deadly Connections** Daniel Byman,2005-06-27 Thousands of people have died at the hands of terrorist groups who rely on state support for their activities Iran and Syria are well known as sponsors of terrorism while other countries some with strong connections to the West have enabled terrorist activity by turning a blind eye Daniel Byman s hard hitting and articulate book analyzes this phenomenon Focusing primarily on sponsors from the Middle East and South Asia it examines the different types of support that states provide their motivations and the impact of such sponsorship The book also considers regimes that allow terrorists to raise money and recruit without providing active support The experiences of Iran Pakistan Afghanistan Syria Saudi Arabia and Libya are detailed here alongside the histories of radical groups such as al Qaida and Hizballah The book concludes by assessing why it is often difficult to force sponsors to cut ties to terrorist groups and suggesting ways in which it could be done better in the future **Functional nervous disorders** Donald Elms Core,1922 Unmasking Terror: A compendium of articles from Jamestown's Terrorism Monitor, September 11, 2003-September 11, 2004 Jamestown Foundation (Washington, D.C.),2004 For over a year the Jamestown Foundation has published objective fact driven analyses of terrorist organizations and their operations through its Terrorism Monitor publication As the only periodical in circulation devoted to examining the war on terror and the struggle against al Qaeda the newsletter offers a unique perspective comprising some of the world s leading experts on international terrorism Unmasking Terror is a compilation of articles from the first year of Terrorism Monitor Through the lively and understandable articles in Unmasking Terror readers can quickly gain an appreciation for the complexities of the various terrorist groups their motives aims and sources of support The book is an excellent resource for private sector experts policymakers and intelligence officials and anyone seeking a greater understanding of the many challenges of combating terrorism **The Anatomy and Philosophy of Expression as Connected with the Fine Arts** Charles Bell,1904 **Contract-Crops** John Mews,1898 *The Crime-Terror Connection* Joseph M.
