The Third Planet:

Earth- Michael D. Cole, 2001 Describes the third planet from the sun including its orbit *The Third Planet* Nathan Skaggs, 2013-07-02 Following an astronomical catastrophe Heracles leads an expedition from a dying world in search of a suitable planet for his species During their search of the cosmos Heracles and his companions make phenomenal discoveries After several months in space Heracles locates a solar system with a habitable planet third from its sun in the far reaches of the galaxy

The Third Planet J. V. Perrone, 2014-05-31 As the author of this novel I prefer not to provide biographic data except to disclose that I currently reside in Florida having moved there in 2004 after working in the financial district of New York City While still a rail commuter from New Jersey my daily morning route included taking the PATH train from Hoboken into the basement of the World Trade Center where especially when the weather was spring like I usually would exit the complex through its central plaza and from there walk the three blocks to my office My timing was such that I was usually in the plaza by 8 45 AM in order to be on time for work Having returned a few days earlier from a tiring vacation I decided that fateful Tuesday morning of September 11 2001 to get a few extra winks of sleep and to take the late train to work As a result I was about thirty minutes later than usual and not where I normally would have been at 8 46 AM when the first plane struck the north tower of the World Trade Center If the events of that day did not change my perspective on life then the following weeks and months of working in the humbling atmosphere of such a terrible disaster did Many questions were asked and not answered Was it by human design alone Was it because of divine punishment In any event in order to mentally escape the reality of an environment in which physical escape was not then possible I found that when I had a private moment to think on the subway the commuter train on a work break etc I did so with pen in hand And what emerged at the time were poems that helped me deal with questions of the soul and resolve the remorse I felt which was later replaced with a sense of hope Although I always had what I thought to be a talent for writing through which I could express thoughts and feelings in a way I never could do verbally I had never written anything of consequence before that disastrous day in 2001 And yet looking back it seemed that whatever pen I subsequently used in writing those poems which eventually turned out to be many must have had a magical connection because the words came only after first picking up the pen Many times the words came quickly without my having to think as if I was simply transcribing what was being dictated It was the same with this novel I never planned to write a novel and most certainly do not consider myself an author But one day a thought came into my head causing me to pick up a pen and on a simple notepad I began to write the first chapter of this book The characters immediately came into being and essentially it is their novel their story At times when the story stagnated causing me to sit at the computer while my fingers remained still it was as if the characters had nothing to say so much so that if a family member who knew of the writing of this novel would ask me at the time how it was coming along my answer would be that the characters weren't talking to me So maybe this isn't a novel at all Maybe it all did happen a long while ago and that

through some kind of a time anomaly the people described herein may have telepathically communicated their story to me so that this world that we live in today could have knowledge of what once had been I really don't know what do you think J V Perrone

Haltia and the Third Planet D. Judson Hindes, 2004-06 Haltia loves to float through the music of his world and rush through the colored rocks of its surface It is only when the Elders discover the dangers of the Third Planet that he must give up his idle pursuits to investigate and determine if its destruction is necessary Taking human form lets him wander freely amongst them but leaves him vulnerable to the violence that saturates the planet When he is lost Mather follows to complete the mission and if possible find the lost explorer Instead he finds an impossible love The Elders are standing by with their fingers on the button The future of Earth hangs in the balance while Mather tries to figure out a woman's heart and Haltia tries to figure out humanity's smoothest reading work in years Age appropriate for all seamless in delivery fresh and new in its creativity your work is freaking priceless For autographed copy eJud2001 Yahoo.com MFL see list files special offer iJud.blogspot.com
