## Truth Talk:

*Pretense and Pathology* Bradley Armour-Garb, James A. Woodbridge, 2015-07-24 This book provides a new philosophical fictionalism to solve traditional paradoxes and puzzles in the philosophy of language and metaphysics **Fictionalism in Metaphysics** Mark Eli Kalderon, 2005-07-07 Fictionalism is the view that a serious intellectual inquiry need not aim at truth It came to prominence in philosophy in 1980 when Hartry Field argued that mathematics does not have to be true to be good and Bas van Fraassen argued that the aim of science is not truth but empirical adequacy Both suggested that the acceptance of a mathematical or scientific theory need not involve belief in its content Thus the distinctive commitment of fictionalism is that acceptance in a given domain of inquiry need not be truth normed and that the acceptance of a sentence from the associated region of discourse need not involve belief in its content In metaphysics fictionalism is now widely regarded as an option worthy of serious consideration This volume represents a major benchmark in the debate it brings together an impressive international team of contributors whose essays all but one of them appearing here for the first time represent the state of the art in various areas of metaphysical controversy relating to language mathematics modality truth belief ontology and morality **The Table Talk and Omniana of Samuel Taylor Coleridge** Samuel Taylor Coleridge, 1888
