

## Tips For Building with Green Intention!

- 1. Understanding Ecosystem Impacts** - Consider the materials you use and what they take from the Earth through their life cycle. Look for renewables and/or materials that are long-lasting and if those aren't available, look for opportunities to reuse!
- 2. Calculate the Embodied Carbon** - These are emissions which result from harvest, manufacturing and transport. Find out what the level is on the products you are considering selecting, then pick wisely.
- 3. Assessing Ongoing Needs** - It is important to not only think about the impacts of your building project, but also the ongoing maintenance and possible ongoing energy and water needs.
- 4. Join the Red List Challenge** - Avoid this list of contaminants in the materials you build with to create a safe and healthy living environment:
  - [https://en.wikipedia.org/wiki/Red\\_List\\_building\\_materials#Living\\_Building\\_Challenge\\_Red\\_List](https://en.wikipedia.org/wiki/Red_List_building_materials#Living_Building_Challenge_Red_List)
- 5. Energy Models** - Consider using an energy model to assess your energy needs. This will guide you towards the most efficient way to reach your goals for a new build or to identify opportunities for improvements in an existing retrofit, many online resources exist such as:

**Profession and Purpose** Katie Kross, 2017-09-29 Sustainability holds the promise of an exciting new approach to business one in which business goals are aligned with social and environmental goals Multinational corporations are recognizing that we live in an increasingly resource constrained world and that more accountability for corporate social and environmental impacts will accrue to them More importantly forward thinking executives understand that sustainability can present new opportunities for competitive advantage whether that is by reducing costs minimizing risk appealing to increasingly conscientious customers or reaching new markets entirely With the growth of this field comes a host of interesting new career opportunities for MBAs As companies are grappling with challenges like how to develop social return on investment SROI metrics or understand the potential impact of corporate carbon footprints on stock prices there are new

opportunities for the next generation of managers managers who are not only trained in traditional MBA fundamentals but also grounded in an understanding of the multifaceted social and environmental challenges facing 21st century global business leaders Entirely new career paths are opening to MBAs interested in sustainability sustainable venture capital green marketing corporate social responsibility management carbon credit trading and sustainability consulting to name a few Perhaps even more than corporate executives MBA students understand this trend The next generation of managers can see that the future of business will require a new set of skills and responsibilities Between 2003 and 2008 membership in Net Impact the global organization for MBAs and business professionals interested in sustainability increased more than fourfold By March 2009 over 130 business schools had a Net Impact chapter Around the world MBA students realize that a different model will be required for businesses in the coming decades The career paths that fall under the broad umbrella of sustainability are as diverse as the MBA students themselves One student may be interested in social entrepreneurship in West Africa and the next will be seeking advice about clean tech venture capital careers in Silicon Valley a third will be interested in greening global supply chains Corporate social responsibility sustainable product marketing microfinance green real estate development renewable energy and other interests all likewise fall under the sustainability umbrella at times Because of this diversity it is often hard for business schools career management centers to address sustainability related career options in a comprehensive way Many sustainability related companies and nonprofits are not accustomed to on campus recruiting Others have not historically hired MBAs at all MBA students and alumni interested in sustainability careers are often left to navigate their own internship and job search paths And often they struggle Profession and Purpose has been written to address this urgent need Whether you are focused on an off campus search or participating in the on campus recruiting process there are a host of sustainability specific career resources you should know about You ll need to be well versed in sustainability news and trends and network at the right events conferences and company presentations You also need to know about industry and discipline specific websites that post sustainability jobs for positions with titles like Corporate Social Responsibility Manager Socially Responsible Investing Analyst and Renewable Energy Market Analyst Through hundreds of conversations with MBA students professionals and recruiters as well as her own personal experience the author has compiled the key job search resources and tips for MBAs interested in sustainability careers The book provides ideas for researching companies making the most of your networking identifying job and internship openings and preparing for interviews No matter what stage of your MBA career search process you re in this book will help you better understand your career options in the many fields of sustainability direct you to the best resources and help you to fine tune your sustainability job search strategy It s the sustainability career coach MBAs have been waiting for [Pennsylvania Township News](#) ,2009 [Sustainable Industries Journal](#) ,2008 [Charity and Philanthropy For Dummies](#) Karl T. Muth,Michael T. S. Lindenmayer,John Kluge,2014-01-09 The easy way to make a difference Despite tough economic times

rates of donations are on the rise If you want to make a difference but don't know where to start you need Charity Philanthropy For Dummies This is your one stop no nonsense guide to charitable activities Inside you'll find lots of strategies for philanthropic work such as volunteering your time raising funds donating your own cash or expertise impact investing and social entrepreneurship You'll also find lots of case studies from charities big and small to show you what works and what doesn't Help with selecting where to donate or invest Ideas for how you can make a difference without having pots of money Advice on socially responsible and impact investing Techniques for reaching out to others to help your cause from a local to a global level You don't need deep pockets to make a difference you need Charity Philanthropy For Dummies **Go Solar California : a Step by Step Tool Kit for Local Governments to Go Solar : California Energy Commission's New Solar Homes Partnership** ,2009 **Builder** ,2007 *Toxics in Your Community Newsletter* ,2000 The Extreme Searcher's Internet Handbook Randolph Hock,2010 Presents a guide on how to effectively search the Internet covering such topics as search engines directories newsgroups image resources and reference resources **Guide to Green Building Rating Systems** Linda Reeder,2010-03-29 The one stop guide for choosing a green building rating system Today sustainability is a growing concern for the architects designers builders and owners of commercial and residential buildings Meeting the requirements of a rating system provides a metric to evaluate and set priorities But the variety and complexity of methods available to assess the eco friendliness of a building can seem overwhelming Guide to Green Building Rating Systems informs readers about the rating system selection process Comparing essential issues such as cost ease of use and building performance this book offers solid guidance that will help readers find the rating system that best fits their needs This easy to follow reference includes An overview of the major national rating systems including LEED Green Globes the National Green Building Standard and ENERGY STAR An in depth look at each rating system including its evolution objectives point structure levels of certification benefits and shortcomings How the ratings systems work for different types of buildings commercial multi family residential and single family residential construction Illustrated case studies from different climate regions with project descriptions cost data and lessons learned by design teams constructors and owners An overview of local regional and international rating systems Guide to Green Building Rating Systems demystifies complex material making this book an essential reference for building professionals engaged in or wishing to pursue sustainable building practices **Florists' Review** ,1915 **Journal of the American Medical Association** ,1922
