*Theosophical Evolutionism* Theodore Mainage, Suzanne Duche, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. [The Lost Land of Lemuria](#) Sumathi Ramaswamy, 2004-09-27 This is a fascinating study of Lemuria, a mythical continent which was once believed to bridge the land masses of India and Africa millennia ago before ultimately sinking into the Indian sea. *ORIGIN AND EVOLUTION OF WORLD RELIGION (Free Book)* DARSHAN SINGH Darshan Singh, 2025-07-24 *ORIGIN AND EVOLUTION OF WORLD RELIGION (Free Book)* DARSHAN SINGH **Evolution of Life and Form** Annie Besant, 2020-07-24 Reproduction of the original *Evolution of Life and Form* by Annie Besant **Evolution of Life and Form: Four Lectures Delivered at the Twenty-Third Anniversary Meeting of the Theosophical Society at Adyar, Madras, 1898** Annie Wood Besant, 1905-01-01 **Hartmann's Who's who in Occult, Psychic and Spiritual Realms...in the United States and Foreign Countries**, 1927 **POLARITIES IN THE EVOLUTION OF HUMANITY** Rudolf Steiner, 2022-05-04 The present age needs to understand that human beings must hold the balance between the two extremes between the ahrimanic and the luciferic poles. People always tend to go in one direction. The Christ stands in the middle, holding the balance. Rudolf Steiner. These eleven lectures were given in post-war Stuttgart against a backdrop of struggle and uncertainty, not only within society at large but also within the anthroposophical movement. Rudolf Steiner and his supporters were working to introduce threefold social ideas, and given Steiner's public profile, were coming under increasing personal and sometimes physical attack. Steiner responds to this turbulent situation by revealing the spiritual background to the forces of decline working in contemporary civilization. He speaks of retrogressive powers, spiritual beings referred to as luciferic or ahrimanic, that work directly into human culture, manifesting for example in what he refers to as the initiation streams of Western secret societies, the Church, allied impulse of Jesuitism, and the Bolshevik force of Leninism. The spiritual agents of adversity also encourage polarised thinking and false opposites such as East versus West, materialism and mysticism, or knowledge and belief. Only the threefold principle represented by Christ allows us to create a balance in the midst of these existential conflicts. This freshly reworked translation is complemented with notes, an index, and an introduction by Matthew Barton. **Evolution** Henry T. Edge, 1975 This clear, logical, and dispassionate exposition presents the viewpoint of both science and Theology and shows how Theosophical teaching holds the missing key to an understanding of the problem of evolution. Chapters explore the antiquity of man, heredity and evolution, the astral plane, atavism, involution and evolution. **Evolution of Mrs. Besant**, 1918 *Human Evolution* RUDOLF STEINER, 2014 Anyone who takes hold of what we call spiritual science, not with purely abstract thoughts but with his whole being, will see that this spiritual science

goes right into the dexterity of the hands that it makes a person more capable and enables him to extend his interest over wider areas and his will over a wider world Rudolf Steiner Returning from travels in war torn Europe Rudolf Steiner gives a stark impression of the disastrous conditions of the time encouraging deeper esoteric work as a counter to the world situation Speaking under the broad theme of human development in the light of anthroposophy he analyses the gulf between contemporary culture and science which he says are characterized by narrow mindedness philistinism and ineptitude and a scientific approach to the spirit At the same time Steiner is clear sighted about the shortcomings of his followers mentioning past failures and a continuing tendency towards sectarianism and dogmatic judgements Rudolf Steiner discusses how we experience a state of separateness with the world through our physical form whilst our aura or soul spiritual being is already living actively in cosmic surroundings A conscious crossing of the threshold into the spiritual world is urgent and necessary today although Steiner warns of the dangers inherent in certain eastern and western approaches The tendency of initiates of the Orient is to abandon the human race whilst the American impulse is immersed too strongly in physical bodily nature And a potential demonic influence works through technology However a spiritual scientific path of knowledge and development can allow us to navigate through these challenges Other themes featured include the threefold Sun Mystery of ancient times the Mystery of Christ Jesus and the threefold being of man the human limbs as thoughts of the higher hierarchies the loss of the spiritual knowledge of the old Mysteries the gulf between idealism and realism the formation of language from Cosmic Intelligence the Pythagorean School and the mendacity of the world at that time the disintegration of words after death the twelve senses the spiritual impact of old people s death on the physical Earth and the impulse of socialism The wealth of spiritual thoughts and knowledge presented in these lectures remain as relevant today as they did when they were first delivered
