Virtual Silence:

Sound Patricia Kruth, Henry Stobart, 2007-02 Fascinating accessible survey of the acoustic world from physics and music to zoology and film *Postfeminist War* Mary Douglas Vavrus, 2018-12-10 By examining news and documentary media produced since September 11 2001 Vavrus demonstrates that news narratives that include women use feminism selectively in gender equality narratives She ultimately asserts that such reporting advances post feminism which in tandem with banal militarism subtly pushes military solutions for an array of problems women and girls face Analyzing Digital Discourses Marjut Johansson, Sanna-Kaisa Tanskanen, Jan Chovanec, 2022-01-12 This book contributes to the scholarly debate on the forms and patterns of interaction and discourse in modern digital communication by probing some of the social functions that online communication has for its users An array of experts and scholars in the field address a range of forms of social interaction and discourses expressed by users on social networks and in public media Social functions are reflected through linguistic and discursive practices that are either those of convergence or controversy in terms of how the discourse participants handle interpersonal relations or how they construct meanings in discourses In this sense the book elaborates on some very central concerns in the area of digital discourse analysis that have been reported within the last decade from various methodological perspectives ranging from sociolinguistics and pragmatics to corpus linguistics This edited collection will be of particular interest to scholars and students in the fields of digital discourse analysis pragmatics sociolinguistics social media and communication and media and cultural studies *Your Voice* Douglas Stanley, 1957 COMPOS DEMENTIS: Volume III Darek Malone, 101-01-01 COMPOS DEMENTIS Volume III Porosity Porosity focuses on the failure of boundaries Distinctions between self and other past and present reality and intrusion begin to thin without warning Influence seeps rather than invades altering perception memory and agency The stories in this volume inhabit threshold spaces where separation was assumed but never secured Responsibility diffuses as crossings occur quietly and gradually These narratives suggest that permeability is not an anomaly but a condition long mistaken for control The Fortnightly ,1928
