Stop Leading, Start Building! Robyn R.

Jackson, 2021-02-16 You are a school administrator a principal or maybe a district leader You re doing everything right poring over data trying new strategies launching annual initiatives bringing in outside trainers So why do the outcomes you seek still seem so far away The problem isn t you it s that you were trained in school leadership and school leadership just isn t up to the challenge Each year Robyn R Jackson helps thousands of administrators stop wasting time and energy on flawed leadership approaches that succeed only with the right staff students parents budget and boss As they have discovered it s possible to transform your school with the people and resources you already have The secret Stop leading and start building In this book you ll learn to use Jackson s breakthrough Buildership Model to escape the school improvement hamster wheel and finally create the school your students and teachers deserve The work involves a handful of simple shifts in how you approach Purpose Instead of chasing tiny gains or the next new thing every year you ll establish and use an ambitious vision mission and set of core values to galvanize your staff keep everyone focused and create true accountability for achieving your goals People You ll discover new ways to help every teacher grow one level in one domain in one year or less and ultimately develop high levels of both will and skill Pathway Instead of trying to tackle every problem at once you ll identify the biggest obstacle standing in your way right now and figure out exactly how to remove it once and for all Plan You ll learn a new process for solution implementation that is iterative cyclical and capable of powering both short term wins and ongoing transformation year over year When you stop leading and start building you let go of the idea that you need to work harder to make your school work better You no longer settle for incremental improvement when what you really want is dramatic change and better learning outcomes for all It s time to make the shift from leadership to buildership Get ready to turn your school into a success story

Moments for Nothing Gabriele Schwab, 2023-10-24 Samuel Beckett s work has entranced generations of readers with its portrayal of the end times Beckett s characters are preoccupied with death and the specters of cataclysm and extinction overshadow their barren bleak worlds Yet somehow they endure experiencing surreal and often comic repetitions that seem at once to confront finitude and the infinite up to the limits of existence Gabriele Schwab draws on decades of close engagement with Beckett to explore how his work speaks to our current existential anxieties and fears Interweaving critical analysis with personal reflections she shows how Beckett s writing provides unexpected resources for making sense of personal and planetary catastrophes Moments for Nothing examines the ways Beckett s works have taken on new meaning in an era of crises climate change environmental devastation and the COVID 19 pandemic that are defined by both paralyzing stasis and pervasive uncertainty They also offer a bracing depiction of aging and the end of life exploring loneliness vulnerability and decay Beckett s particular vision of the apocalypse and his sense of persistence Schwab argues help us understand our times and even perhaps provide sanctuary and solace Moments for Nothing features insightful close readings of iconic works such as Endgame Happy Days and the trilogy as well as lesser known writings including the thirty five second play Breath which Schwab reconsiders in light of the pandemic
