80 Old Testament Characters of World History: Chronological, Historical and Archaeological Evidence Gerard Gertoux,2016-02-27 Despite the fact that the name of many characters mentioned in the Old Testament like David King of Israel have been recently confirmed by archaeology as well as their epoch and the events in which they were involved most archaeologists continue to deny the historicity of the Bible they view as pious fiction or a mythical account They argue that the major events in the Bible such as the victory of Abraham against Chedorlaomer an unknown king of Elam around 2000 BCE the victory of Moses against an unknown Pharaoh around 1500 BCE or the victory of Esther an unknown Persian Queen against an unknown vizier of Xerxes never existed because they left absolutely no evidence They also explain that according to what we know today these events could not have occurred These logical arguments are impressive but a precise chronological analysis based on absolute dates coupled with a rigorous historical investigation shows that all those major events really took place at the dates and places indicated
