Writing with Class ,2003 **Resources in Education** ,1988 Engaging Ideas John C. Bean,Dan Melzer,2021-06-09

Use your course's big ideas to accelerate students' growth as writers and critical thinkers. The newly revised third edition of *Engaging Ideas* delivers a step-by-step guide for designing writing assignments and critical thinking activities that engage students with important subject matter questions. This new edition of the celebrated book, now written by the co-author team of Bean and Melzer, uses leading and current research and theory to help you link active learning pedagogy to your course's subject matter. You'll learn how to design formal and informal writing assignments that guide students toward thinking like experts in your discipline. Use time-saving strategies for coaching the writing process and handling the paper load, including alternatives to traditional grading such as portfolio assessment and contract grading. Help students use self-assessment and peer response to improve their work. Develop better ways than the traditional research paper to teach undergraduate reading and research. Integrate social media, multimodal genres, and digital technology into the classroom to promote active learning. This book demonstrates how writing can easily be integrated with other critical thinking activities such as inquiry discussions, simulation games, classroom debates, and interactive lectures. The reward of this book is watching students come to class better prepared, more vested in the questions your course investigates, more apt to study purposefully, and more likely to submit high-quality work. Perfect for higher education faculty and curriculum designers across all disciplines, *Engaging Ideas* will also earn a place in the libraries of graduate students in higher education. *Connections + MyWritingLab Access Card* Tammy Montgomery, Megan C.
