Benson, William S. Greaves, 1985 **Systemic Perspectives on Discourse, Volume 2**, 1985-01-01 *Systemic Perspectives on Discourse, Volume 1* James D. Benson, William S. Greaves, 1985 *Systemic Perspectives on Discourse* James D. Benson, William S. Greaves, 1985 **International handbook of teachers and teaching** Bruce J. Biddle, Thomas L. Godd, Ivor F. Goodson, 1997 *The Bloomsbury Handbook of Systemic Functional Linguistics* Jonathan J. Webster, David Butt, Federico Navarro, Carol Webster, 2026-01-08 A state of the art reference to the field of systemic functional linguistics providing a guide for advanced students and researchers in the field Systemic Perspective on Discourse Vol.1&2, 1985 **Linguistics in a Systemic Perspective** James D. Benson, Michael Joseph Cummings, William S. Greaves, 1988-01-01 The purpose of this book is to provide a general introduction to Systemic Linguistics in the form of essays written by leading figures in the field These are with one exception not previously published and taken together they constitute a comprehensive coverage of the diverse interests of current systemic theory The volume contains bibliographies and an index **Drawing multimodality's bigger picture: Metalanguages and corpora for multimodal analyses** Janina Wildfeuer, Claudia Lehmann, 2024-07-30 Multimodality has most recently been described no longer as a research field or discipline on its own but rather as a stage of development within a field Bateman 2022a 49 The realization that 1 many different fields and disciplines now enter their own multimodal phase with new interest in multimodal phenomena and that 2 these disciplines all commit to the development of multimodality research with their own theoretical principles and methodological tools brings with it not only an immense breadth of potential analytical objects but also many new meta methodological issues We need to find ways of combining insights from the variously imported theoretical and methodological backgrounds brought along by previous non multimodal stages of any contributing disciplines Bateman 2022a 49 At the same time the search for a meta methodology for multimodal analyses is pushed further by the recent trend towards more empirical approaches to multimodal phenomena and the development and use of larger multimodal corpora that just as well require theoretical and methodological refinements We need to develop ways of strengthening claims with robustly applicable methods which nevertheless remain firmly anchored theoretically Bateman 2022b 64 For a productive handling of these issues disciplinary triangulation and finding a common language or metalanguage Maton newest results from data collection methods and multimodal corpus analyses that expand the current quantitative work by e.g. applying existing theories and methods to larger datasets or exploring the newest communication technologies We are particularly interested in seeing how works addressing these aspects contribute to finding ways of productive triangulation and integration for and within a meta methodology for multimodality research This Research Topic aims to bring together scholars from a variety of disciplines interested in multimodality research to review

explore and advance the contributions that John Bateman as one of the key figures in multimodality research has made to both theory and method building as well as to the driving forward of multimodal empirical and corpus analyses We welcome contributions that for example critically address the theoretical and methodological advancements that John Bateman has made with regard to the notions of semiotic mode discourse semantics genre textuality etc apply one of the many approaches that John Bateman has developed for the empirical analysis of multimodal artefacts e g the GeM model for page based documents his work on multimodal film and audio visual analysis and the discourse semantics and or annotation approach to visual narratives to larger corpora or currently newly developing communicative situations expand on one of the abovementioned aspects with new ideas and insights from disciplines that have not yet been included in multimodality research

Systemic Functional Approaches to Discourse James D. Benson, William S. Greaves, 1988 **Society in Language, Language in Society** Wendy L. Bowcher, Jennifer Yameng Liang, 2016-01-26 This collection of original articles covers a range of research connecting with the work of the eminent linguist Ruqaiya Hasan It contains contributions from M A K Halliday G Williams D Butt D Miller and M Berry among others an interview with Ruqaiya Hasan and notes from the contributors about their connection with Ruqaiya Hasan s work [Interpersonal Meaning in Multimodal English Textbooks](#) Yumin Chen, 2022-03-10 Exploring multimodality in English language teaching textbooks this book focusses on how language and image are co deployed within these resources in order to create and convey interpersonal meaning Presenting cutting edge research in appraisal studies and multimodal discourse analysis Yumin Chen uses systemic functional linguistics and social semiotics to investigate how different voices are introduced and aligned inter modally in textbooks extending the appraisal systems of engagement and graduation across language and image The book also demonstrates how linguistic and visual semiotic resources co instantiate attitude paying special attention to the attitudinal dimension of curriculum goals for school students of different ages Furthermore it examines how different kinds of coding orientation are deployed in various educational contexts and different constituent genres Demonstrating how the linguistic and semiotic theories can be adapted to analyze multimodal texts across language and image *Interpersonal Meaning in Multimodal English Textbooks* offers new perspectives on how to employ multimodal resources to enhance the teaching and learning of English as a foreign language

Pragmatics, Discourse and Text Erich Steiner, Robert Veltman, 1988 *Micropolitics in the Multinational Corporation* Florian A. A. Becker-Ritterspach, Susanne Blazejewski, Christoph Dörrenbächer, Mike Geppert, 2016-05-26 Over the past decade politics perspectives in international business have moved into the mainstream repertoire of research theory development and teaching about the organisational behaviour of multinational corporations MNCs Politics perspectives contribute substantially to understanding the behaviour in and of MNCs in their different contexts and environments but so far these burgeoning perspectives have not been systematically and comprehensively reviewed This book offers the first detailed overview of the theoretical foundations methodologies and empirical applications of politics perspectives in MNCs A

group of international authors discuss twelve seminal contributions to the study of politics power and conflict in MNCs followed by a summary and synthesis of the literature into a comprehensive analytical framework The book closes with a discussion of future directions in the field This is a thorough introduction to political behaviour in MNCs written for scholars and graduate students in the fields of organisation studies and international business Multimodality and Multimediality in the Distance Learning Age Anthony Baldry,2000 *International Encyclopedia of Linguistics* William Bright,1992 A four volume reference comprising approximately seven hundred alphabetically ordered entries the IEL provides detailed and up to date information on all branches of linguistics The IEL encompasses the full range of the contemporary field of linguistics including historical comparative formal mathematical functional and philosophical linguistics It gives special attention to interrelations within branches of linguistics and to relations of linguistics with other disciplines and covers areas of intersection with the social and behavioral sciences as well as interdisciplinary work in language and literatures mathematical linguistics computational linguistics and applied linguistics Providing abundant examples with literal glosses and English translations the IEL offers extensive coverage of languages and language families from English and Japanese to Hittite and Yoruba Bringing together the latest information on the diverse subject matters of linguistics and including a network of cross references this encyclopedia is an invaluable resource **Syntax** Joachim Jacobs,1993 **Form and Function of Causation** Liesbeth Degand,2001 The aim of this study is to provide a unified functional description of a number of causal constructions in Dutch the connectives *omdat* *want* *doordat* the prepositions *door* *vanwege* *wegens* and the auxiliaries *doen* and *laten* Given the observation that the various causal alternatives are not in free variation in discourse the author hypothesises that this distribution must be constrained and that it should be possible to identify some of the constraints that play a role in the selection of these causal forms To reach this goal Degand proposes to make use of a multifunctional theory of language Systemic Functional Linguistics in combination with numerous corpus analyses This approach to language appeared to be particularly relevant because it enables to give an explicit account of aspects of language that fall out of the traditional scope of linguistic description namely accounts of genre register discourse semantics etc while the corpus analyses provide a solid empirical basis for the theoretical descriptions
