Tracking Nuclear Proliferation A Guide In Maps And Charts:

Tracking Nuclear Proliferation Rodney W. Jones,1998 Tracking Nuclear Proliferation Leonard S. Spector,Mark G. McDonough,Evan S. Medeiros,1995 FROST Copy 2 From the John Holmes Library Collection **Tracking Nuclear Proliferation** Rodney W. Jones,Mark G. McDonough,1998 This is the seventh survey in the Carnegie Endowment s series on nuclear proliferation prepared under the direction of Carnegie Endowment senior associate Leonard S Spector This new assessment again offers the most recent available data on key developments in 17 nations of proliferation concern

Nuclear Proliferation in South Asia Sumit Ganguly,S. Paul Kapur,2008-08-06 This edited volume explores competing perspectives on the impact of nuclear weapons proliferation on the South Asian security environment The spread of nuclear weapons is one of the world s foremost security concerns The effect of nuclear weapons on the behaviour of newly nuclear states and the potential for future international crises are of particular concern As a region of burgeoning economic and political importance South Asia offers a crucial test of proliferation s effects on the crisis behaviour of newly nuclear states This volume creates a dialogue between scholars who believe that nuclear weapons have stabilized the subcontinent and those who believe that nuclear weapons have made South Asia more conflict prone It does so by pairing competing analyses of four major regional crises the 1987 Brasstacks crisis the Indo Pakistani crisis of 1990 the 1999 Kargil war which occurred after the nuclear tests and the 2001 2 Indo Pakistani militarized standoff In addition the volume explores the implications of the South Asian nuclear experience for potential new nuclear states such as North Korea and Iran **Assessing Democracy Assistance** Thomas Carothers,2013-01-25 In recent years assistance aimed at promoting democracy abroad has become a major component of U S foreign aid and of the U S government s post Cold War policy of seeking to enlarge the international community of democratic nations Despite its rapid growth however democracy assistance remains poorly understood in practice and its value is frequently questioned This landmark study an examination of U S democracy assistance efforts in Romania is the first comprehensive analysis of the workings and failings of U S democracy assistance in one country Based on the author s extensive field research the study provides widely applicable answers to key questions about the value strategies methods and future of such assistance *Military Industry and Regional Defense Policy* Timothy D. Hoyt,2017-07-05 *Military Industry and Regional Defense Policy* re examines military industrialization in the developing world focusing on policy making in producer states and the impact of security perceptions on such policy making Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that

focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective *Putting Teeth in the Tiger* Michael Brzoska, George A. Lopez, 2009-08-07 Foreign affairs practitioners and policy analysts claim that international arms embargoes usually fail due to the lack of political will among national governments to implement and enforce these restrictions This book includes chapters that examine some of the complex cases of arms embargoes such as Iraq Pakistan Angola and Liberia

Nuclear Proliferation in the Indian Subcontinent Hooman Peimani, 2000-08-30 The main impact of the May 1998 nuclear tests of India and Pakistan was not on the nuclear non proliferation regime Peimani asserts but on the structure of the international system The tests could not encourage massive nuclear proliferation as many natural factors prevent such a scenario but they surely contributed to the weakening of the mainly American dominated international system The failure of nuclear India and Pakistan to achieve their objectives has increased their dissatisfaction with a system which they see as discriminating against them on the grounds of their insignificant nuclear arsenals and their severe underdevelopment Given their limited resources their attempts to deal with these problems in the near future and in particular to develop credible arsenals would be self exhausting and not feasible Their failure has turned them into dissatisfied regional powers who are being pushed toward forming alliances with their long time friends Russia and China respectively Each has strong reasons for dissatisfaction with the American system which is marginalizing them Their concerns about common enemies and threats as well as their economic and political needs are pushing these states toward the formation of tacit or official alliances Decades of friendship and extensive ties make them natural allies and encourage the formation of an alliance between India and Russia on the one side and China and Pakistan on the other By creating strong regional poles these predictably hostile alliances will contribute to the weakening of the international system and the consolidation of a rising multipolarity Scholars students and researchers involved with foreign policy American Indian and American Pakistani relations and international military political relations will find this analysis of particular interest

Security and Security Building in the Indian Ocean Region A. D. D. Gordon, 1996 *International Journal of Contemporary Sociology*, 2009 *Negotiations Between State Actors and Non-state Actors* Raymond Saner, M. Varinia Michalun, 2009 With the end of the Cold War came a proliferation of actors partaking in disputes be they at local regional national or international levels This book takes a step closer to the reality of international conflicts by adding a special focus on the relations between state and non state actors

Strategic Studies, 2006 Tinderbox Stephen Zunes, 2003 This policy relevant study of US Foreign policy written in the light of September 11 examines US actions since the 1970s in the critical geographical arena of the Middle East It argues that the more that the US has militarized the region the less secure have the American people become The US faces a stark contrast to continue

imposing a Pax Americana or to promote real peace based on human rights international law and sustainable development

Prevailing in a Well-armed World Henry D. Sokolski, 2000 This book provides insights into the competitive strategies methodology Andrew Marshall notes that policymakers and analysts can benefit by using an analytical tool that stimulates their thinking about strategy in terms of long term competition between nations with conflicting values policies and objectives The book also demonstrates the strengths of the competitive strategies approach as an instrument for examining U S policy The method focuses on policies regarding the proliferation of weapons of mass destruction In shaping the international environment in the next millennium no other national security issue seems as complex or important The imperative here is to look to competitive strategies to assist in asking critical questions and thinking both broadly as well as more precisely about alternatives for pitting U S strengths against opponents weaknesses in global regional or interstate competitions Part I suggests that the competitive strategies approach has value for both the practitioner and the scholar Part II uses the framework to examine and evaluate U S nonproliferation and counterproliferation policies formed in the final years of the 20th century In Part III the competitive strategies method is used to analyze a regional case that of Iran

Indian Journal of Strategic Studies ,2003 Comprehensive Test Ban Treaty Carl Paddock, 2010 Where Does India Stand Barack Obama has made the CTBT a priority in his non proliferation policy and has promised to seek Senate ratification of the Treaty Once the US ratifies the CTBT there will be extreme pressure on India to sign it Should India sign the CTBT or link it to complete nuclear disarmament What will be in India s interests This book tries to address all these issues Going deep into the historical background of the CTBT it examines India s stand on it Also it analyses the impact of nuclearization of India and Pakistan on South Asia the Indo US nuclear deal the security interests of the US and the Pakistan factor **World Affairs** ,2002 Includes the Annual report of the American Peace Society **Orient** ,2008 **NIDS Security Reports** ,2004 *Conflict and Peacemaking in South Asia* ,2001 Includes papers originally presented at a conference held in March 1999 at Jawaharlal Nehru University New Delhi
