

A blue spiral-bound notebook is the central focus, lying on a light-colored desk. A white rectangular label is affixed to the front cover of the notebook, featuring the words "Trade Secret" in a large, bold, black sans-serif font. The notebook's silver spiral binding is visible along the top edge. In the foreground, a black pen with a silver clip lies on a white sheet of paper. The paper contains a hand-drawn line graph with several jagged peaks and valleys, suggesting a fluctuating data set. The overall scene is lit with a cool, blue-toned light, creating a professional and confidential atmosphere.

Takeaways **Trade Secrets Legal Protection** Luc Desaunettes-Barbero,2023-06-10 Despite the economic relevance of trade secrets their legal protection is not based on a robust theoretical corpus and a large uncertainty remains regarding how they should be legally apprehended The present book investigates the foundations of their legal protection by assessing its justifications and aims to define how this legal apprehension should be organized The book starts with a comparative analysis of the US and the EU legal frameworks It demonstrates the parentship existing between the two systems of protection and highlights that the incremental structuring of trade secrets protection has led to legal systems lacking broad based conceptual foundations In both legal orders trade secrets rely on blurred protection formally anchored in unfair competition the strength of which however comes closer to that offered by intellectual property law In this convoluted architecture the judiciary is required to play a decisive role especially at the enforcement stage However the absence of clarity concerning the telos of trade secrets protection leads to legal uncertainty potentially incoherent enforcement and all in all to inefficient outcomes from a welfare perspective The book then explores a theoretical framework based on a distinction between two legal objects the undertakings secret sphere and secret pieces of information Securing the undertakings secret sphere appears as a condition for the competition process to happen in an economy working under structural uncertainty It requires objective regulations enforced by public authorities On the other hand the legal apprehension of secret pieces of information should be considered as falling within the realm of immaterial goods regulation aiming to solve the deficit of marketability of this type of good This might call after conducting a careful policy trade off for the establishment of relative i e inter partes subjective rights
