researched topic of Russian opera Much new archival material is introduced and revised biographies of the two leading eighteenth century Russian composers Maxim Berezovsky and Dmitry Bortniansky are provided as well as those of the serf composer Stepan Degtyarev and the Italian Giuseppe Sarti The book places eighteenth century Russian music on the European map and will be of particular importance for the study of European musical cultures remote from such centres as Italy Germany Austria and France Eighteenth century Russian music is organically linked with its past and future and its contributory role in forming the Russian national identity and developing the Russian idiom is clarified
