Supplying Repression Michael T. Klare, Cynthia Arnson, Delia Miller, Daniel Volman, 1981 Michael Klare has been a pioneer researcher at the information frontier of the imperial war system for years indicating the viability and relevance of such an enterprise even in our kind of closed society This volume written in collaboration with Cynthia Arnson updates and extends his valuable study of U S support for authoritarian governments Their analysis enables us to get beyond slogans and to grasp the organic links between training repressive tactics and the anguish of torture victims This portrayal makes it unmistakably clear that the United States is and has been all along a knowing senior partner of repression on a global scale And indeed the new emerging Reagan foreign policy based on an all oceans American led alliance of right wing governments boldly acknowledges our dependence on these repressive regimes and their dependence on us for the latest off the shelf knowhow and hardware

Transforming Settler States Ronald Weitzer, 2022-08-19 In the past two decades several settler regimes have collapsed and others seem increasingly vulnerable This study examines the rise and demise of two settler states with particular emphasis on the role of repressive institutions of law and order Drawing on field research in Northern Ireland and Zimbabwe Ronald Weitzer traces developments in internal security structures before and after major political transitions He concludes that thoroughgoing transformation of a repressive security apparatus seems to be an essential but often overlooked precondition for genuine democracy In an instructive comparative analysis Weitzer points out the divergent development of initially similar governmental systems For instance since independence in 1980 the

government of Zimbabwe has retained and fortified basic features of the legal and organizational machinery of control inherited from the white Rhodesian state and has used this apparatus to neutralize obstacles to the installation of a one party state In contrast though liberalization is far from complete The British government has succeeded in reforming important features of the old security system since the abrupt termination of Protestant Unionist rule in Northern Ireland in 1972 The study makes a novel contribution to the scholarly literature on transitions from authoritarianism to democracy in its fresh emphasis on the pivotal role of police military and intelligence agencies in shaping political developments This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

**American Arms Supermarket** Michael T. Klare, 2014-06-30 U S arms sales to Third World countries rapidly escalated from 250 million per year in the 1950s and 1960s to 10 billion and above in the 1970s and 1980s But were these military sales so critical in their impact on Third World nations and on America s perception of its global role achieving the ends and benefits attributed to them by U S policymakers In *American Arms Supermarket* Michael T Klare responds to this troubling still timely question with a resounding no showing how a steady growth in arms sales places global security and stability in jeopardy Tracing U S policies practices and experiences in military sales to the Third World from the 1950s to the 1980s Klare explains how the formation of U S foreign policy did not keep pace with its escalating arms sales how instead U S arms exports proved to be an unreliable instrument of policy often producing results that diminished rather than enhanced fundamental American interests Klare carefully considers the whole spectrum of contemporary American arms policy focusing on the political economy of military sales the evolution of U S arms export policy from John F Kennedy to Ronald Reagan and the institutional framework for arms export decision making Actual case studies of U S arms sales to Latin America Iran and the Middle East provide useful data in assessing the effectiveness of arms transfer programs in meeting U S foreign policy objectives The author also rigorously examines trouble spots in arms policy the transfer of arms making technology to Third World arms producers the relationship between arms transfers and human rights and the enforcement of arms embargoes on South Africa Chile and other pariah regimes Klare also compares the U S record on arms transfers to the experiences of other major arms suppliers the Soviet Union and the big four European nations France Britain the former West Germany and Italy Concluding with a reasoned carefully drawn proposal for an alternative arms export policy Klare vividly demonstrates the need for cautious restrained and sensitive policy
