Understanding Rituals:

Understanding Rituals Daniel de Coppet,2002-11-01 Understanding Rituals explores how ritual can be understood within the framework of contemporary social anthropology and shows that ritual is now one of the most fertile fields of anthropological research The contributors demonstrate how rituals create and maintain or transform a society s cultural identity and social relations By examining specific rituals from various theoretical viewpoints they reveal the ultimate and contradictory values to which each society as a whole is attached *Understanding Rituals* Daniel de Coppet,1992

Understanding Religious Ritual John Hoffmann,2013-03-01 Although numerous studies of religious rituals have been conducted by religious studies scholars anthropologists sociologists and psychologists it is rare to find a work that brings scholars from different disciplines together to discuss the similarities and differences in their research This book represents contributions by leading scholars from several disciplines that show the diversity of approaches to religious rituals while also providing cross disciplinary perspectives on this topic The goals of the chapters are to consider where the field currently stands in understanding religious rituals and what novel ideas can improve our knowledge about these practices and furnish innovative applications of theory by discussing particular examples which are drawn from the authors fieldwork The chapters cover Christian Buddhist Jewish and Islamic rituals thus providing a view of how ritual practices vary across the globe but also how they share some important characteristics **The Four-Hour Focus Window: Build Deep Work Rituals** Lena

Voss,2026-03-10 Most people do not lack time for deep work They lack the conditions internal and external that make depth possible Four hours of genuine undivided focus is not a small ambition in a world designed for interruption But it is also not an unrealistic one for those willing to understand what actually makes it happen The Four Hour Focus Window explores what genuine deep work requires beneath the surface the mental preparation that precedes a focused session the environmental conditions that support rather than sabotage attention and the internal resistance that arises the moment real cognitive effort is demanded It examines why rituals matter not as superstition but as the reliable scaffolding that allows the mind to shift from scattered to sustained This book offers insight into the psychological patterns that fragment focus before it begins the habitual checking the low grade anxiety of unfinished tasks the discomfort of sitting with difficulty long enough for real thinking to emerge It reframes the focus window not as a time management technique but as a daily practice of returning to depth in a culture that rewards the appearance of busyness over the substance of genuine work For anyone who knows they are capable of deeper thinking than their current environment allows this book explores the inner and outer conditions that make that depth consistently accessible **Understanding Rituals** David Parkin,Michel Cartry,Charles

Malamoud,Raymond Jamous,J.D.M. Platenkamp,Gerd Baumann,2000 Ritual Practices in Congregational Identity Formation Timothy D. Son,2014-05-08 Ritual Practices in Congregational Identity Formation investigates the educational roles of ritual practices in the process of congregational identity formation Son identifies and analyzes various kinds of

Christian rituals with respect to how rituals influence the formational processes of a congregation's identity Based on Victor Turner's ritual theory this book also investigates the pedagogical and transformative efficacies of ritual practices within the dynamics of congregational education Religious and Social Ritual Michael Bjercknes Aune, Valerie M. DeMarinis, 1996-01-01 Examines particular rituals social and religious as a special kind of cultural performance or interaction in a wide variety of traditions and locations **We are what We Celebrate** Amitai Etzioni, Jared Bloom, 2004-12 How did Martin Luther King Jr's birthday become a national holiday Why do we exchange presents on Christmas and Chanukah What do bunnies have to do with Easter How did Earth Day become a global holiday These questions and more are answered in this fascinating exploration into the history and meaning of holidays and rituals Edited by Amitai Etzioni one of the most influential social and political thinkers of our time this collection provides a compelling overview of the impact that holidays and rituals have on our family and communal life From community solidarity to ethnic relations to religious traditions *We Are What We Celebrate* argues that holidays such as Halloween Fourth of July Thanksgiving New Year's Eve and Valentine's Day play an important role in reinforcing and sometimes redefining our values as a society The collection brings together classic and original essays that for the first time offer a comprehensive overview and analysis of the important role such celebrations play in maintaining a moral order as well as in cementing family bonds building community relations and creating national identity The essays cover such topics as the creation of Thanksgiving as a national holiday the importance of holidays for children the mainstreaming of Kwanzaa and the controversy over Columbus Day celebrations Compelling and often surprising this look at holidays and rituals brings new meaning to not just the ways we celebrate but to what those celebrations tell us about ourselves and our communities Contributors Theodore Caplow Gary Cross Matthew Dennis Amitai Etzioni John R Gillis Ellen M Litwicky Diana Muir Francesca Polletta Elizabeth H Pleck David E Proctor Mary F Whiteside and Anna Day Wilde Ritual as a Missing Link J. David Knottnerus, 2016-01-08 Up to now ritual has been under utilised for studying human behaviour This book narrows the gap in our understanding of the social causes and consequences of our actions by focusing on the ritualised behaviours that define much of our daily lives Knottnerus breaks new ground by comprehensively describing structural ritualistic theory He shows how structural reproduction has occurred throughout the world how rituals can be strategically used and how power can influence rituals and how the disruption and reconstitution of ritual is of crucial importance for human beings This book shows that ritual provides a missing link in sociology and helps us better explain the extreme complexity of human action and social reality **Defining the Sacred** Nicola Laneri, 2015-05-08 Religion is a phenomenon that is inseparable from human society It brings about a set of emotional ideological and practical elements that are pervasive in the social fabric of any society and characterizable by a number of features These include the establishment of intermediaries in the relationship between humans and the divine the construction of ceremonial places for worshipping the gods and practicing ritual performances and the creation ritual paraphernalia Investigating the religious

dimensions of ancient societies encounters problems in defining such elements especially with regard to societies that lack textual evidences and has tended to lead towards the identification of differentiation between the mental dimension related to religious beliefs and the material one associated with religious practices resulting in a separation between scholars able to investigate and possibly reconstruct ritual practices i e archaeologists and those interested in defining the realm of ancient beliefs i e philologists and religious historians The aim of this collection of papers is to attempt to bridge these two dimensions by breaking down existing boundaries in order to form a more comprehensive vision of religion among ancient Near Eastern societies This approach requires that a higher consideration be given to those elements either artificial buildings objects texts etc or natural landscapes animals trees etc that are created through a materialization of religious beliefs and practices enacted by members of communities These issues are addressed in a series of specific case studies covering a broad chronological framework that from the Pre pottery Neolithic to the Iron Age Cover illustration German Archaeological Institute photo N Becker

Cult Followings: How to Build Engaged Communities Celeste Rowan, 2026-02-13 This book explores how deeply engaged communities develop around brands products or movements through deliberate cultivation of shared identity and reciprocal value exchange It examines patterns in audience fragmentation where enterprises accumulate followers without fostering genuine connection revealing mechanisms through which community architecture ritual design and member empowerment transform passive consumers into active advocates The content reframes community building not as audience accumulation but as ecosystem creation where members derive status belonging and tangible benefits from participation beyond transactional product consumption Readers will examine frameworks for identifying unifying beliefs establishing membership criteria and designing interaction spaces that facilitate peer connection rather than solely brand to customer communication Through systematic analysis of cult following dynamics the book reveals how exceptional communities operate through member ownership of shared narratives and collective identity markers It navigates tensions between inclusive growth and exclusive belonging exploring decision models for participation barriers recognition systems and governance structures that sustain engagement intensity while scaling community size The work addresses moderation strategies value creation loops and cultural reinforcement mechanisms that enable communities to become self sustaining assets generating organic advocacy and competitive moats

illuminate ritual anew by removing it from its liturgical wrappings and presenting it as something raw basic and central to all living beings He then examines the varied ways humans use ritual to give order to their lives to provide a sense of security and control especially in the face of extreme danger witness the new wave of pilgrimage to Oklahoma City federal building s fenced off shell From there Driver looks closely at how ritual creativity and performance are central to enacting religious beliefs and how rituals serve to transform individuals into members of communities China Throughout the Ages Léon Wieger,1928 Light ,1909 **Death Ritual and Germanic Social Structure (c.
