Handbook to Bach's Sacred Cantata Texts
Melvin P. Unger, 1996-04-16 The German church cantata of the eighteenth century was the culmination of a long tradition of Lutheran sermon music that used the proclamation amplification and interpretation of scripture to teach and persuade the listener Bach s cantatas also served this didactic purpose and typically incorporate numerous allusions to scriptural passages or themes in their librettos Unfortunately many of these passages remain obscure to the twentieth century musician because they demand a much closer familiarity with the Bible than is common today The Handbook to Bach s Sacred Cantata Texts identifies scriptural references for the wording imagery and themes that Bach s listeners would have known In addition the religious or literary theme of each text is summarized within the specific context of the cantata as a whole With interlinear translations and a full complement of indexes

Exploring the Epistles of John John Phillips, 2003 John Phillips writes with enthusiasm and clarity cutting through the confusion and heretical dangers associated with Bible interpretation Moody Magazine Unity, 1918 **Brotherhood of Locomotive Firemen and Enginemen's Magazine**, 1884 *The Conservator*, 1910 **The Lectures of a Certain Professor** Joseph Farrell, 1906 *Can God Be Free?* William L. Rowe, 2004-04-22 In the three major religions of the West God is understood to be a being whose goodness knowledge and power is such that it is impossible for any being including God himself to have a greater degree of goodness knowledge and power This book focuses on God s freedom and praiseworthiness in relation to his perfect goodness Given his necessary

perfections if there is a best world for God to create he would have no choice other than to create it For as Leibniz tells us to do less good than one could is to be lacking in wisdom or in goodness But if God could not do otherwise than create the best world he created the world of necessity not freely And if that is so it may be argued that we have no reason to be thankful to God for creating us since as parts of the best possible world God was simply unable to do anything other than create us he created us of necessity not freely Moreover we are confronted with the difficulty of having to believe that this world with its Holocaust and innumerable other evils is the best that an infinitely powerful infinitely good being could do in creating a world Neither of these conclusions taken by itself seems at all plausible Yet each conclusion appears to follow from the conception of God now dominant in the great religions of the West William Rowe presents a detailed study of this important problem both historically in the writings of Gottfried Leibniz Samuel Clarke Thomas Aquinas and Jonathan Edwards as well as in the contemporary philosophical literature devoted to the issue Rowe argues that this problem is more serious than is commonly thought and may require some significant revision in contemporary thinking about the nature of God *Sermons bearing on subjects of the day* John Henry Newman, 1898 Lux Mundi Charles Gore, 1890
