The Remote Work Handbook Mari Anne Snow, 2022-09-13 *The Remote Work Handbook The Definitive Guide for Operationalizing Remote Work as a Competitive Business Strategy* is for readers seeking to leverage the business benefits of a flexible remote workforce It is a practical guide for building and implementing remote work at any size organization C suite executives operation leaders business owners or entrepreneurs who recognize the workplace is changing can use it to re tool their operations for a strategic business advantage Mari Anne Snow the author is a recognized remote work expert with over 20 years of experience leading remote teams and has re written the rules of leadership to unlock the potential in remote and distributed teams In this book she shares all her secrets The book explores the untapped potential of remote teams and lays out the business case for adopting a new flexible workplace model to build organizational

resilience and a competitive edge It takes the reader through the step by step process of constructing a remote work operating model staging an implementation then institutionalizing and sustaining the change It includes down to earth professional and personal stories that alert the reader to the top priorities and operational realities they will face as they craft their own implementation plan for operationalizing remote work at their company **Work and Legal Guidelines in the Age of Digitalisation and Green Transition** Rita Remeikienė, Ligita Gasparėnienė, 2025-12-24 This open access book provides important insights into the integration of digitalisation and green economy into the platform economy and how these processes can contribute to the improvement of legal labour regulations and processes in the EU and Eastern Europe It addresses the following key topics the impact of digitisation on the labour market including the impact of robotics and automation on the changing nature of work the organisation of work through digital platforms the relationship between workers and employers the challenges of implementing the Green Deal strategy in the labour market the specifics and types of platform work problems concerning labour regulation on digital platforms in Eastern and Southern European countries such as Moldova Ukraine Bosnia and Herzegovina Serbia Montenegro and Albania and the results of an empirical survey The topics are highly relevant in the contemporary context as the European Parliament adopted the Platform Work Directive in 2024 after several years of debate This Directive aims to sift out the working patterns of the platform sector introducing clear criteria on what is considered to be an individual activity and what is considered to be an employment relationship The EU Directive calls upon each EU country to develop its own criteria for assessing whether certain work carried out via platforms is based on an employment relationship or merely constitutes an individual activity One of the book's main objectives is to present possible business models for digital platform work that offer greater social protection for the worker by analysing the theoretical aspects of digitalisation and the integration of the green economy into the labour market and the legal framework for digital labour market platforms in Eastern and Southern European countries The book will be of interest to policymakers responsible for regulation of the labour market trade unions university lecturers and students of economics and law who are interested in delving into the characteristics and regulation of the digital economy and the digital labour market labour platform workers and employers **Handbook of Radiotherapy Planning** Minsun Kim, Mu-Han Lin, 2026-02-23 The Handbook of Radiotherapy Planning covers essential concepts and practical considerations for achieving high quality external beam radiotherapy plans Edited by recognized experts and authored by highly skilled planners this concise guide emphasizes plan quality as a critical clinical skill It bridges the gap between standard reference materials and day to day clinical practice by providing anatomical site specific guidelines planning tips real world examples and advanced topics Each chapter highlights decision making processes common pitfalls and techniques to improve consistency and quality across a variety of disease sites and treatment approaches The book fosters collaborative workflows and promotes a deeper understanding of treatment planning beyond minimum standards This book is intended for physicists dosimetrists and

radiation oncologists who seek practical and high yield guidance in radiotherapy planning particularly those building their skills early in their careers

Generations in the World of Work Corey Seemiller, Meghan Grace, 2024-12-30 *Generations in the World of Work* provides invaluable data informed insights into the intergenerational dynamics in today's workplaces. Generational experts and authors of *Generation Z: A Century in the Making* Corey Seemiller and Meghan Grace present the perceptions, motivations, and preferences of various generational cohorts and share how those shape individual behaviors, communication, and collaboration, as well as wider organizational structures and norms. They offer guidance for how to maximize productivity and relationships to navigate dynamics across generational cohorts. *Generations in the World of Work* offers employees, managers, and organizational leaders guidance for maximizing productivity, relationships, wellbeing, and engagement across generational differences in order to create thriving workplaces that value and leverage each person's strengths.

Autonomous Flight and Remote Site Landing Guidance Research for Helicopters R. V. Denton, 1987

Handbook of Work and Organizational Psychology Pieter Johan Diederik Drenth, 1984 The introductory volume of the *Handbook of Work and Organizational Psychology* is concerned with definitional, historical, and methodological fundamentals. It explores the nature of studies in work and organizational psychology, the role played by the professional psychologist, and the ways in which the discipline has developed within Europe. The editors attempt to characterize the domain of work and organizational psychology and examine relations between this and other subdisciplines within psychology, as well as those disciplines outside psychology also concerned with work and organization.

Development of Guidelines for Practical and Realistic Construction Specifications Miller-Warden Associates, 1965 A highway construction specification is a means to an end. Its mission is to provide the traveling public with an adequate and economical pavement on which vehicles can move easily from point to point. Specifications should be of the end result materials and methods or restricted performance types depending on the conditions of acceptance. To achieve maximum economy, specification requirements must be geared to policy and cost considerations. To insure practicality, the given administrative and engineering guidelines should be consulted. This report presents guidelines for the preparation of a complete specification meeting all requirements.
