The Structure of Canadian History John L. Finlay, 2006 *Britain and the Origins of Canadian Confederation, 1837-67* Ged Martin, 1995 In *Britain and the Origins of Canadian Confederation 1837 1867* Ged Martin offers a sceptical review of claims that Confederation answered all the problems facing the provinces and examines in detail British perceptions of Canada and ideas about its future The major British contribution to the coming of Confederation is to be found not in the aftermath of the Quebec conference where the imperial role was mainly one of bluff and exhortation but prior to 1864 in a vague consensus among opinion formers that the provinces would one day unite Faced with an inescapable need to secure legislation at Westminster for a new political structure British North American politicians found they could work within the context of a metropolitan preference for intercolonial union **Post-confederation Canada** Douglas N. Sprague, 1990

Pre-Confederation Canada John L. Finlay, 1990 Written by two well known historians this text presents a detailed chronological account of Canadian history from the country's earliest beginnings as a wilderness frontier to its emergence as an independent nation The story unfolds from a power and politics perspective and picks up the themes of social and economic history It incorporates recent research and historical debates and reflects current interpretations of native peoples
