Society and Culture reclaims the classical heritage provides a clear eyed assessment of the promise of sociology in the 21st century and asks whether the cultural turn has made the study of society redundant Sociologists have objected to the rise of cultural studies on the grounds that it produces cultural relativism and lacks a stable research agenda This book looks at these criticisms and illustrates the relevance of a sociological perspective in the analysis of human practice The book argues that the classical tradition must be treated as a living tradition rather than a period piece It analyzes the fundamental principles of belonging and conflict in society and provides a detailed critical survey of the principal social theories that offer solutions to the challenges of modernism Dramatic Structure in Shakespeare's Romantic Comedies John A. Sartre and Psychoanalysis Betty Cannon,1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre s work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud s psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud s work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self s ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy

**Emotional Self-Knowledge** Alba Montes Sánchez,Alessandro Salice,2023-04-13 This volume sheds light on the affective dimensions of self knowledge and the roles that emotions and other affective states play in promoting or obstructing our knowledge of ourselves It is the first book specifically devoted to the issue of affective self knowledge The relation between self knowledge and human emotions is an often emphasized but poorly articulated one While philosophers of emotion tend to give affectivity a central role in making us who we are the philosophical literature on self knowledge focuses overwhelmingly on cognitive states and does not give a special place to the emotions Currently there is little dialogue between both fields or with other philosophical traditions that have important contributions to make to this topic such as phenomenology and Asian philosophy This volume brings together philosophers from the relevant fields to explore two related sets of questions First do philosophers of emotion exaggerate the importance of our affective lives in making us who we are Or is it philosophers of self knowledge who misunderstand emotions Second what is the role of emotions in self knowledge What sort of self knowledge can be secured by paying attention to our emotions Emotional Self Knowledge is an essential resource for researchers and advanced students working on philosophy of emotion philosophy of mind epistemology philosophical psychology and phenomenology Chapter 1 and Chapter 10 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons
