the English plantation system the northern fur trade of the English and the French Dutch and English trade of Indian slaves and deerskins in the South This book covers the full geographic and social scope of the Southeast including the indigenous peoples of Florida Virginia Maryland the Appalachian Mountains the Carolina Piedmont the Ohio Valley and the Central and Lower Mississippi Valleys

Archaeology as a Process Michael John O'Brien, R. Lee Lyman, Michael B. Schiffer, 2005 The publication in 1962 of Lew Binford's paper *Archaeology as Anthropology* is generally considered to mark the birth of processualism a critical turning point in American archaeology In the hands of Binford and other young University of Chicago graduates of the 1960s this new archaeology became the mainstream approach in the U S The realignment that the processualists proposed was so thorough that its effects are still being felt today Predictably processualism also spun off a number of other isms several of which grew up to challenge its supremacy *Archaeology as a Process* traces the intellectual history of Americanist archaeology in terms of the research groups that were at the forefront of these various approaches concentrating as much on the archaeologists as it does on method and theory thus setting it apart from other treatments published in the last fifteen years Peppered with rare photographs of well known archaeologists in some interesting settings the book documents the swirl and excitement of archaeological controversy for the past forty years with over 1 600 references and an in depth treatment of all the major intellectual approaches The contributors examine how archaeology is conducted the ins and outs of how various groups work to promote themselves and how personal ambition and animosities can function to further rather than retard the development of the discipline

The Archaeology of Food and Identity Katheryn C. Twiss, 2007 The chapters in this topically and methodologically diverse volume discuss the role food plays in the construction and maintenance of multiple levels of social identity they also illustrate the myriad ways in which archaeologists may approach the issue The book includes essays from archaeologists working in a wide range of time periods and areas prehistorians and historical archaeologists specialists in the Old World and experts on the New World Contributors use diverse data sets to discuss how food procurement strategies consumption patterns and modes of cooking and dining are intertwined with the construction and maintenance of individual and group identities

Commoners, Tribute, and Chiefs Stephen R. Potter,1993

When Captain John Smith explored the Potomac River in 1608 it was a frontier between two of the most politically complex Indian cultures in the Middle Atlantic region the Conoy chiefdom of southern Maryland and the Powhatan chiefdom of eastern Virginia Some of these diverse Algonquian speaking peoples acknowledged the overlordship of the Piscataways the largest group of the Conoys others acknowledged the authority of the paramount chief Powhatan and still others like the Patowomekes acknowledged no ruler greater than their own The rise and fall of these polities is the subject of *Commoners Tribute and Chiefs* Using an innovative combination of archaeology anthropology and ethno history Stephen Potter traces the rise of one Indian group the Chicacoans whose domain on the south shore of the Potomac straddled the boundary between the Powhatans and the Conoys By presenting a case study of the Chicacoans from A D 200 to the early seventeenth century Potter offers readers a window onto the development of Algonquian culture in the Chesapeake and illuminates the responses of its constituent societies to the invading Europeans He examines the stratification of individual chiefdoms into elites and masses of tribute paying commoners and he demonstrates the progressive consolidation of Algonquian peoples in the century preceding the European influx While most previous scholarship on the Indians of the Potomac has centered on the historic accounts of Captain John Smith and his contemporaries Potter draws extensively on a wealth of materials encountered during his years of research His fascinating narrative succeeds both as a detailed archaeological and ethnohistorical study of the Chicacoans and as a comprehensive interpretation of Algonquian culture

Feasts Michael Dietler,Brian Hayden,2001

From the Ancient Near East to Modern Day North America communal consumption of food and drink punctuates the rhythms of human societies Feasts serve many social purposes establishing alliances for war and marriage mobilizing labor creating political power and economic advantages and redistributing wealth This collection of fifteen essays combines ethnographic and archaeological perspectives to examine the cultural economic and political importance of feasts considering traditional and modern practices from Africa Southeast Asia the Near East Polynesia New Guinea and the Americas Recording types and quantities of food preparation techniques and numbers of

participants the ethnographers provide a much needed behavioral context and theoretical framework for these intricate social interactions and attempt to link feasting practices to physical evidence The archaeologists examine the locations of roasting pits hearths and refuse deposits or the presence of special decorative ceramics and infer the ways in which feasting traditions reveal social structures of lineage clan moiety and polity As practices for organizing ancient and modern societies feasts are intimately implicated in the processes of social and cultural change This book makes these rituals more accessible to archaeological analysis and interpretation Jacket **Archaeological Series** ,1982
