## **Textiles And Politics:**

**Fray** Julia Bryan-Wilson, 2021-02 In 1974 women in a feminist consciousness raising group in Eugene Oregon formed a mock organization called the Ladies Sewing Circle and Terrorist Society Emblazoning its logo onto t shirts the group wryly envisioned female collective textile making as a practice that could upend conventions threaten state structures and wreak political havoc Elaborating on this example as a prehistory to the more recent phenomenon of craftivism the politics and social practices associated with handmaking Fray explores textiles and their role at the forefront of debates about process materiality gender and race in times of economic upheaval Closely examining how amateurs and fine artists in the United States and Chile turned to sewing braiding knotting and quilting amid the rise of global manufacturing Julia Bryan Wilson argues that textiles unravel the high low divide and urges us to think flexibly about what the politics of textiles might be Her case studies from the 1970s through the 1990s including the improvised costumes of the theater troupe the Cockettes the braided rag rugs of US artist Harmony Hammond the thread based sculptures of Chilean artist Cecilia Vicu a the small hand sewn tapestries depicting Pinochet s torture and the NAMES Project AIDS Memorial Quilt are often taken as evidence of the inherently progressive nature of handcrafted textiles Fray however shows that such methods are recruited to often ambivalent ends leaving textiles very much in the fray of debates about feminized labor protest cultures and queer identities the malleability of cloth and fiber means that textiles can be activated or stretched in many ideological directions The first contemporary art history book to discuss both fine art and amateur registers of handmaking at such an expansive scale Fray unveils crucial insights into how textiles inhabit the broad space between artistic and political poles high and low untrained and highly skilled conformist and disobedient craft and art *Textiles as National Heritage: Identities, Politics and Material Culture* Gabriele Mentges, Lola Shamukhitdinova, 2017 The edited volume discusses the role of textile heritage in relation to the dynamics of nation building cultural identity politics economy and the globalization of markets It was sparked by a research project investigating the role of textiles textile design and contemporary fashion in the post Soviet societies of Central Asia and also includes perspectives on similar developments in Algeria and Peru in order to question dichotomous narrations of modernity relations between textile cultures and heritage building cultural property and the concept of cultural heritage Thus this book intends to stimulate the ongoing debate about textile culture as national heritage or as means of nation branding *The Politics of Textiles* Simon Robert Brough Leadbeater, 1993 Traces The Rise And Fall Of India S Composite Mill Sector In Textile Manufacture The Author Concludes That The Policies Linked With The Swadeshi Movement Resulted In Widespread Sickness Among Textile Mills In Bombay And Ahmedabad **Textiles and Politics** Ben F. Bulla, 1992 Textiles and politics were the two major motivating forces in the life of B Everett Jordan Whether as a mill executive or a U S senator whether in Saxapahaw N C or Washington D C he had to choose between private gain and common good easy deception and painful truth personal expediency and the public interest As a conservative and practical

businessman Jordan relentlessly pared costs and stressed profit growth In this way the poor son of a Methodist minister became a multimillionaire Author Ben F Bulla traces the career of a strong and intriguing personality who made major contributions to the textile industry as well as to his state and the nation **Liberal Protectionism** Vinod K. Aggarwal,1985-01-01 The Politics of Textiles Simon Robert Brough Leadbeater,1993 Traces The Rise And Fall Of India S Composite Mill Sector In Textile Manufacture The Author Concludes That The Policies Linked With The Swadeshi Movement Resulted In Widespread Sickness Among Textile Mills In Bombay And Ahmedabad **Textiles & Politics** ,2012 **The Politics of Cotton Textiles in Kuomintang China, 1927-1937** Richard C. Bush,1982 The Politics of Cotton Textiles in Kuomintang China, 1927-1937 Richard C. Bush,1982 Overshot Susan Falls,Jessica R. Smith,2020-03-01 Woven coverlets have appeared in several guises within the history of folk textiles Created on four harness looms coverlets made in the nineteenth century American South typically featured colored wool and cotton threads woven into striking geometric patterns Although they are not as well known as other textiles and domestic objects overshot coverlets were and continue to be significant examples of material culture that require tremendous skill and creativity to produce They also express currents of conformity and dissent In addition to being pleasing to the eye and hand overshot coverlets have advanced a variety of social and political ends At times exhibited in slave quarters along the seaboard in Georgia and South Carolina in association with plantation properties they also appear in piedmont areas attached to the antebellum yeomanry in the context of nationalist craft revivals and in white box contemporary art With Overshot Susan Falls and Jessica R Smith analyze what we can learn by examining the exhibition and interpretation of these materials within American public history By showing how geometric overshot coverlets can be understood in relationship to the global economy and within politicized cultural movements Falls and Smith demonstrate how these erstwhile domestic utilitarian objects explode the art craft dichotomy belong to a rich narrative of historical art forms and tell us far more about American culture today than simply representing a nostalgic past particularly with regard to ideas about race class nationalism women s labor and the separation of private versus public spaces **Textile Translations** Ma Carmen África Vidal Claramonte,2025-12-23 Textile Translations Weaving Stories Touching Meanings offers a new and original perspective in translation studies The key idea explored in this book is that we communicate not only through our intellect but also through our senses Ma Carmen frica Vidal Claramonte presents her view that if we communicate with our body we also translate with our body through embodied translations The book focuses on textile art as a form of textile translation that communicates without words not only through the visual but also through tactile sensory experiences It is richly illustrated with examples such as arpilleras and other creations by contemporary artists such as Ghada Amer and Jen Bervin who use the tactility of materials to rewrite not only situations of injustice poverty abuse of power suffering and despair but also of hope and solidarity A key text for anyone studying and researching translation studies but also due to the transdisciplinary nature of the book it will appeal to those with an interest

in anthropology and sensory studies *In-Between Textiles, 1400-1800* Beatriz Marín-Aguilera, Stefan Hanß, 2025-10-01 *In Between Textiles* is a decentred study of how textiles shaped disrupted and transformed subjectivities in the age of the first globalisation. The volume presents a radically cross disciplinary approach that brings together world leading anthropologists, archaeologists, art historians, conservators, curators, historians, scientists and weavers to reflect on the power of textiles to reshape increasingly contested identities on a global scale between 1400 and 1800. Contributors posit the concept of in between textiles building upon Homi Bhabha's notion of in betweenness as the actual material ground of the negotiation of cultural practices and meanings, a site identified as the battleground over strategies of selfhood and the production of identity signs troubled by colonialism and consumerism across the world. *In Between Textiles* establishes cutting edge conversations between textile studies, critical cultural theory and material culture studies to examine how textiles created and challenged experiences of subjectivity, relatedness and dislocation that transformed social fabrics around the globe.

**The Politics of Protection, Expansion, and Escape** Stefanie Ann Lenway, 1982 *Fibre & Fabric*, 1927 **The Palgrave Encyclopedia of Peace and Conflict Studies** Oliver P. Richmond, Gözim Visoka, 2022-06-21 This encyclopaedia provides a comprehensive overview of major theories and approaches to the study of peace and conflict across different humanities and social sciences disciplines. Peace and conflict studies (PCS) is one of the major sub disciplines of international studies including political science and international relations and has emerged from a need to understand war related systems and concepts and how to respond to it afterward. As a living reference work, easily discoverable and searchable, the Palgrave Encyclopedia of Peace and Conflict Studies offers solid material for understanding the foundational historical and contemporary themes, concepts, theories, events, organisations and frameworks concerning peace, conflict, security, rights, institutions and development. The Palgrave Encyclopaedia of Peace and Conflict Studies brings together leading and emerging scholars from different disciplines to provide the most comprehensive and up to date resource on peace and conflict studies ever produced. *Working-Class Americanism* Gary Gerstle, 1989 In this classic interpretation of the 1930s rise of industrial unionism, Gary Gerstle challenges the popular historical notion that American workers embrace of Americanism and other patriotic sentiments in the post World War I years indicated their fundamental political conservatism. He argues that Americanism was a complex, even contradictory language of nationalism that lent itself to a wide variety of ideological constructions in the years between World War I and the onset of the Cold War. Using the rich and textured material left behind by New England's most powerful textile union, the Independent Textile Union of Woonsocket, Rhode Island, Gerstle uncovers for the first time a more varied and more radical working class discourse. Viennese Actionism represents a notorious case within art history, often cited but little

studied especially in the United States By carefully looking at the unsettling performances that define this movement Caroline Lillian Schopp offers a vital corrective to the narrative Schopp observes that contrary to the reception of their graphic violence many performances explore passivity vulnerability and dependence in gestures of in action Viennese Actionism registers hesitations about the liberatory ethos of the 1960s amplified by Austria s marginalized postwar social and artistic culture In dialogue with feminist theory In action assembles a vocabulary for performance art without the standards of self assertion emancipation and expressive action that continue to inform how art and politics are understood today Decentering the traditional focus on the male protagonists of Viennese Actionism G nter Brus Otto Muehl Hermann Nitsch and Rudolf Schwarzkogler Schopp draws attention to women who performed with them including Anna Brus Hanel Koeck and Ingrid Wiener Doing so brings into view how these performances scrutinize intimate relationships like marriages partnerships and friendships as well as the conventions of traditional artistic media such as painting and tapestry The Political Economy of the Indonesian Textile Industry Under the New Order Government Makarim Wibisono,1990 **The Saturday Review of Politics, Literature, Science and Art** ,1878
