**The Genocides** Thomas M. Disch, 2000-11-14 This spectacular novel established Thomas M Disch as a major new force in science fiction First published in 1965 it was immediately labeled a masterpiece reminiscent of the works of J G Ballard and H G Wells In this harrowing novel the world s cities have been reduced to cinder and ash and alien plants have overtaken the earth The plants able to grow the size of maples in only a month and eventually reach six hundred feet have commandeered the world s soil and are sucking even the Great Lakes dry In northern Minnesota Anderson an aging farmer armed with a Bible in one hand and a gun in the other desperately leads the reduced citizenry of a small town in a daily struggle for meager existence Throw into this fray Jeremiah Orville a marauding outsider bent on a bizarre and private revenge and the fight to live becomes a daunting task Controversies in the Field of Genocide Studies Samuel

Journal of Genocide Research      **The Genocide in Rwanda in Comparative Perspective** Klaus Bachmann,2025-03-31  
This book combines social science concepts history and transitional justice studies to examine the social dynamics specific actors and ideologies involved in the genocide in Rwanda and examines what makes this genocide a unique case of mass violence and political transition compared with other cases of mass violence It analyzes the conditions necessary for people to engage in intimate violence against their neighbors and family members asking what inclines ordinary men and women to join gangs of killers and what role policies authorities ideologies emotions negotiations and material incentives play in the mobilization for mass atrocities Comparing genocidal events elsewhere in time and location the book provides an up to date overview of the 1994 events in Rwanda and offers new and surprising insights from previously inaccessible archival records explaining how to facilitate foreign intervention in the future This book is of key interest to scholars and students of African politics genocide studies and more broadly to security studies conflicts and conflict resolution studies decolonization studies and contemporary and comparative history      **A Cultural Interpretation of the Genocide Convention** Kurt Mundorff,2020-08-25 This book critiques the dominant physical and biological interpretation of the Genocide Convention and argues that the idea of culture is central to properly understanding the crime of genocide Using Raphael Lemkin s personal papers archival materials from the State Department and the UN as well as the mid century secondary literature it situates the convention in the longstanding debate between Enlightenment notions of universality and individualism and Romantic notions of particularism and holism The author conducts a thorough review of the treaty and its preparatory work to show that the drafters brought strong culturalist ideas to the debate and that Lemkin s ideas were held widely in the immediate postwar period Reconstructing the mid century conversation on genocide and situating it in the much broader mid century discourse on justice and society he demonstrates that culture is not a distraction to be read out of the Genocide Convention it is the very reason it exists This volume poses a forceful challenge to the materialist interpretation and calls into question decades of international case law It will be of interest to scholars of genocide human rights international law the history of international law and human rights and treaty interpretation      Genocide Israel W.
