*America in 101 Objects Deluxe* Richard Kurin, 2013-10-29 A magnificent new history of America told through 101 treasures from the Smithsonian's collections. The Deluxe Edition features eight videos that go behind the scenes at the Smithsonian for a closer look at some of the book's most important objects hosted by author and curator Richard Kurin. The Smithsonian Institution is America's largest and most cherished repository for the objects that define our common heritage. Richard Kurin, its Under Secretary for History, Art, and Culture, has for decades served as a driving force in the effort of our national museums to tell America's whole story. This book is the culmination of a broad effort led by Kurin and involving all the Smithsonian's museums and more than a hundred of its top scholars and curators to select a set of objects that could collectively represent the American experience. Strong deliberation honed literally millions of possibilities down to a careful selection of 101 remarkable objects that do justice to the history of our bountiful land and its people. That history begins with remains from the earliest years of the pre-Columbian continent and relics of the American Revolution and Civil War. It includes the inventions of the industrial revolution, artifacts of the Depression, World War II, and cold war eras, icons of pop culture and of the Civil Rights movements, as well as the objects that now symbolize the digital age and the first years of the new millennium. Each entry pairs the fascinating history of each object with the place it has come to occupy in our national memory. Kurin sheds new light on familiar objects like the Star Spangled Banner and Abraham Lincoln's stovepipe hat, Dorothy's ruby slippers, and Julia Child's kitchen, the giant pandas, and the space shuttle Discovery, including the often astonishing tales of how each made its way into the Smithsonian. Other objects like the suffragists' Great Demand banner and the Tuskegee flyer will be eye-opening new discoveries for many, but no less evocative of the most poignant and important moments of American history. Others like Sitting Bull's ledger, Cesar Chavez's union jacket, and the Enola Gay bomber illustrate difficult chapters in the nation's history. Kurin also includes behind-the-scenes insight into controversies arising from their exhibition at the Smithsonian. In Kurin's hands, these marvelous objects come to vivid life, awakening a deep and tactile connection with our nation's history. A beautiful treasure in its own right, *The Smithsonian's History of America in 101 Objects* is an incomparable journey through America's collective memory and a celebration of the resilient power of objects to illustrate who we are as a people.

**America in 101 Objects** Richard Kurin, 2016-10-25 The Smithsonian Institution is America's largest most important and most beloved repository for the objects that define our common heritage. Now Under Secretary for Art History and Culture, Richard Kurin, aided by a team of top Smithsonian curators and scholars, has assembled a literary exhibition of 101 objects from across the Smithsonian's museums that together offer a marvelous new perspective on the history of the United States. Ranging from the earliest years of the pre-Columbian continent to the digital age and from the American Revolution to Vietnam, each entry pairs the fascinating history surrounding each object with the story of its creation or discovery and the place it has come to occupy in our national memory. Kurin sheds remarkable new light on objects we think we know well, from Lincoln's hat to Dorothy's ruby slippers and Julia Child's kitchen, including the often astonishing tales of how each made its way into the collections of the Smithsonian. Other objects will be eye-opening new discoveries for many, but no less evocative of the most poignant and important moments of the American experience. Some objects, such as Harriet Tubman's hymnal, Sitting Bull's ledger, Cesar Chavez's union jacket, and the Enola Gay bomber, tell difficult stories from the nation's history and inspire controversies when exhibited at the Smithsonian. Others, from George Washington's sword to the space shuttle Discovery, celebrate the richness and vitality of the American spirit. In Kurin's hands, each object comes to vivid life, providing a tactile connection to American history. Beautifully designed and illustrated with color photographs throughout, *The Smithsonian's History of America in 101 Objects* is a rich and fascinating journey through America's collective memory and a beautiful object in its own right. *Annual Report of the Board of Regents of the Smithsonian Institution*, 1910

**Legacies** Steven Lubar, Kathleen M. Kendrick, 2014-06-03 The Smithsonian Institution has been America's museum since 1846. What do its vast collections, from the ruby slippers to a piece of Plymouth Rock, first ladies' gowns to patchwork quilts, a Model T Ford to a customized Ford LTD low rider, tell Americans about themselves? In this lavishly illustrated guide to the Smithsonian's National Museum of American History, Steven Lubar and Kathleen M. Kendrick tell the stories behind more than 250 of the museum's treasures, many of them never before photographed for publication. These stories not only reveal what America, as a nation, has decided to save and why, but also speak to changing visions of national identity. As the authors demonstrate, views of history change over time; methods of historical investigation evolve and improve; and America's understanding of the past matures. Shifts in focus and attitude lie at the hearth of *Legacies*, which is organized around four concepts of what a national museum of history can be: a treasure house, a shrine to the famous, a palace of progress, and a mirror of the nation. Thus, the museum collects cherished or precious objects, houses celebrity memorabilia, documents technological advances, and reflects visitors' own lives. Taking examples from science and technology, politics, decorative arts, military history, ethnic heritage, popular culture, and everyday life, the authors provide historical context for the work of the Smithsonian and shed new light on what is important and who is included in American history. Throughout its history, Lubar and Kendrick conclude, the museum has played a vital role in both shaping and reflecting America's sense of
