Totality And Infinity

Emmanuel Levinas

Totality And Infinity:

Totality and Infinity Emmanuel Lévinas,1969 First published in English by Duquesne in 1969 this has become one of the classics of modern philosophy **Levinas' 'Totality and Infinity'** William Large,2015-07-30 Emmanuel Levinas Totality and Infinity is a monumental work of phenomenological enquiry that goes on to assert the centrality of ethics to philosophical thought This Reader s Guide provides a detailed explanation of the work breaking down the occasionally intimidating but always inspirational content of Totality and Infinity for non specialist readers unpacking the complexities of Levinas thought with clarity and rigour Ideal for students coming to Levinas for the first time the book offers essential guidance outlining key themes approaches to reading the text the reception and influence of the work and recommends secondary reading materials

Totality and Infinity E. Levinas,1979 Ever since the beginning of the modern phenomenological movement disciplined attention has been paid to various patterns of human experience as they are actually lived through in the concrete This has brought forth many attempts to find a general philosophical position which can do justice to these experiences without reduction or distortion In France the best known of these recent attempts have been made by Sartre in his *Being and Nothingness* and by Merleau Ponty in his *Phenomenology of Perception* and certain later fragments Sartre has a keen sense for life as it is lived and his work is marked by many penetrating descriptions But his dualistic ontology of the en soi versus the pour soi has seemed over simple and inadequate to many critics and has been seriously qualified by the author himself in his latest Marxist work *The Critique of Dialectical Reason* Merleau Ponty s major work is a lasting contribution to the phenomenology of the pre objective world of perception But aside from a few brief hints and sketches he was unable before his unfortunate death in 1961 to work out carefully his ultimate philosophical point of view This leaves us then with the German philosopher Heidegger as the only contemporary thinker who has formulated a total ontology which claims to do justice to the stable results of phenomenology and to the living existential thought of our time **Totality and Infinity at**

50 Scott Davidson,Diane Perpich,2012 Essays by 14 Levinas scholars provide a fresh account of the argument and purpose of Emmanuel Levinas s major work *Totality and Infinity* drawing parallels between Levinas and other thinkers considering Levinas s relationship to other disciplines such as nursing psychotherapy and law and bringing this seminal text to bear on specific concrete issues of present day concern Provided by publisher **Totality and Infinity: an Essay on Exteriority**

Emmanuel Lévinas,1969 **Levinas and the Night of Being** Raoul Moati,2016-10-03 Can we say that metaphysics is over That we live as post phenomenology claims after end of metaphysics Through a close reading of Levinas s masterpiece *Totality and Infinity* Raoul Moati shows that things are much more complicated *Totality and Infinity* proposes not so much an alternative to Heidegger s ontology as a deeper elucidation of the meaning of being beyond Heidegger s fundamental ontology The metaphor of the night becomes crucial in order to explore a nocturnal face of the events of being beyond their ontological reduction to the understanding of being The deployment of being beyond its intentional or ontological reduction

coincides with what Levinas calls nocturnal events Insofar as the light of understanding hides them it is only through deformalizing the traditional phenomenological approach to phenomena that Levinas leads us to their exploration and their systematic and mutual implications Following Levinas s account of these nocturnal events Moati elaborates the possibility of what he calls a metaphysics of society that cannot be integrated into the deconstructive grasp of the metaphysics of presence Ultimately Levinas and the Night of Being opens the possibility of a revival of metaphysics after the end of metaphysics

Levinas's Existential Analytic James R. Mensch,2015-01-30 By virtue of the originality and depth of its thought Emmanuel Levinas s masterpiece *Totality and Infinity An Essay on Exteriority* is destined to endure as one of the great works of philosophy It is an essential text for understanding Levinas s discussion of the Other yet it is known as a difficult book Modeled after Norman Kemp Smith s commentary on Kant s *Critique of Pure Reason* Levinas s *Existential Analytic* guides both new and experienced readers through Levinas s text James R Mensch explicates Levinas s arguments and shows their historical referents particularly with regard to Heidegger Husserl and Derrida Students using this book alongside *Totality and Infinity* will be able to follow its arguments and grasp the subtle phenomenological analyses that fill it **Levinas and the Night of Being** Raoul Moati,2017 A close reading of Emmanuel Levinas s masterpiece *Totality and Infinity* which leads to a rehabilitation of the Metaphysical question beyond its deconstructive critique during the XXth Century **Totality and Infinity** Emmanuel Levinas,1980-02-29 **Levinas and the Night of Being** Raoul Moati,2016 A close reading of Emmanuel Levinas s masterpiece *Totality and Infinity* which leads to a rehabilitation of the Metaphysical question beyond its deconstructive critique during the XXth Century **Studia Phaenomenologica VI / 2006** Cristian Ciocan,2006-01-01

The Solidarity of Others in a Divided World Anselm Kyongsuk Min,2004-02-03 Using the paradigm of solidarity of others as the central theme of theology this book shows that it is possible to renew the doctrine of the Holy Spirit as the Spirit of solidarity and recapture the potential of the body of Christ as embodiment of this solidarity **Levinas and the Night of Being** Raoul Moati,2017 Can we truly claim that metaphysics is over Through a close reading of Levinas s masterpiece *Totality and Infinity* and a careful elaboration of Levinas s concept of the nocturnal event that surpasses the light of understanding Raoul Moati opens the possibility of a revival of metaphysics after the end of metaphysics Liberty, Equality, and Plurality Larry May,Christine T. Sistare,Jonathan Schonsheck,1997 Voters as well as ethicists and legal experts are currently debating many of the issues inherent in balancing individual with majority and minority group rights though often there seems to be an inverse correlation between the two May Washington U chairs lively multidisciplinary discussions on the in compatibility of liberty and equality with responsibility being the wild card law morality and limits on liberty in regard to freedom of speech poverty taxation and assisted suicide and equality and the clash of cultures in cases of hate speech and religious freedom vs refusal of medical treatment Annotation copyrighted by Book News Inc Portland OR *The Politics of Deconstruction* Martin McQuillan,2007-08-20 Leading scholars discuss ideology and hotly contested post
