Perspective on Analytical Writing a Focus on Feature and Editorial Writing Richmond S. Anderson Snr., 2021-12-10 The writing of this book *Perspective on Analytical Writing a focus on Feature and Editorial writing* is based on the urge for students majoring in mass communication on the African continent particularly those within the Economic Community of West African States ECOWAS to have a simplistic understanding of the course feature and editorial writing It will be oblivious or a miss calculation to say that there are no texts books on feature and editorial writing on the African continent since I have not had the opportunity to extensively travel within Africa but what could be safely said is for over three decades since I completed my under graduate studies I have not seen a text book on feature and editorial writing readily Based on this experience the book first endeavored in its starting to give students an insight on what an analytical writing is beginning with a drill on perspective and gave a detailed and vivid picture of perspective thereby laying the basis to understanding what feature and editorial writing is all about Although the core focus of the book is on feature and editorial writing but as the title depicts *Perspectives on Analytical Writing* more emphases are placed on perspective and analytical writing in order to provide a deeper understanding for the students as a foundation to grasp the concept of feature and editorial writing Also the book featured research as a component to writing an appreciable

feature and editorial piece Added to research other ingredients for writing good feature and editorials are also considered They include opinion persuasion and propaganda Furthermore since feature and editorial writings are within the scope of mass communication and journalism it became imperative for the book to touch on the ethical aspect of the profession aimed at providing students the barometer of knowing what to do and not what to do while writing feature and editorial pieces In its conclusive stage the book dealt with the impact of editorial on political actors as it relates to their involvement in the process of national development As you will come across in your reading mass communication and journalism are catalysts to agenda setting in any society therefore it is expected that stakeholders particularly those involved in the governance process of our countries in Africa to take clue from editorial articles especially those that advocate for positive change to propel them to respond to the developmental needs of Africa Now let s be practical and reflect on a simple analogy referencing a performance by a group of movie stars such as the late popular comedian Peter Ballah of Liberia Kekura Kamara with his popular movie Malawala Balawala of Liberia Salla Kamara with his movie Blood Diamond of Sierra Leone Mr Ibu John Okafor with the show Mr Ebu and his son of Nigeria or John Dumelo with the movie the tie that binds of Ghana As these movie stars are performing in their movies the viewers are fascinated with emotion amusement and are thrilled by the performances while in their seats in the theatre movie hall or in their various homes Just as the emotion of viewers is intrigued by the performances or movies so feature and editorial write ups are replica to evoking the emotion of the readers The articles must create a scenario of curiosity to arouse or entice the readers This is the drama in feature and editorial writing

Writing Analytically with Readings David Rosenwasser,Doug Babington,Jill Stephen,2012-02-03 Writing Analytically is an across the curriculum rhetoric with integrated readings that teaches students how to have an idea and develop analytical essays in an academic setting This text approaches writing as a process that involves the exploration of questions ideas and experiences It challenges the notion there is a right answer to writing analytically but rather teaches students that writing analytically means allowing a thesis and arguments to evolve in response to evidence and source material Readings are integrated into the content of the chapters helping students see that the concepts they are learning are actually employed by active writers

Writing Analytically (with 2019 APA Updates and MLA 2021 Update Card) David Rosenwasser, Jill Stephen, 2021-07-27 Learning to write well requires learning to use writing as a tool to think well and this book shows you how WRITING ANALYTICALLY leads you through the process of analysis and synthesis and helps you to generate original well developed ideas Whether you re already a confident writer or someone who feels stranded amidst your notes and sources waiting for the light bulb of inspiration to rescue you this book will help you improve your skills It s built on a series of tools for thinking that proceed step by step Applying the tools will enable you to see more and arrive at better ideas about whatever you re analyzing You ll learn to determine which details are important in your subject how to go about figuring out why they are important and most important how to talk and write about what they mean *Valid Analytical Methods and Procedures* Christopher Burgess, 2000 This handbook defines procedures that ensure the best use of resources and enables laboratories to generate consistent reliable data Written in a concise easy to read language and illustrated with worked examples this is a guide to the best practices and methods A control framework for the development and validation of laboratory based analytical methods is established Particular attention is given to the sample methods chosen instrumentation personnel and calculations used *Handbook of Quality Assurance for the Analytical Chemistry Laboratory* J. Dux, 2013-11-11 xii a second edition might be in order and readily agreed Although the basic principles remain the same discussions with analysts laboratory supervisors and managers indicated many areas where improve ments could be made For example new chapters have been added on sampling and quality assurance laboratory facilities and quality assurance and auditing for quality assurance Very little of the first edition has been discarded but many topics have been expanded considerably The chapter on computers has been completely rewritten in view of the rapid changes in that field The chapter in the first edition on planning and organizing for quality assurance has been split into two chapters one on planning for quality assurance and the other on organizing and establishing a quality assurance program and new material on mandated quality assurance programs has been combined with the material on laboratory accreditation Numerous examples especially those involving mathematical calculations have been added at the suggestion of some readers In short this edition is very nearly a new book and I can only hope it is as well received as the first edition CHAPTER 1 Quality Quality Control and Quality Assurance One of the strongest trends in modem society is the continuing ev olution from a manufacturing to a service oriented economy
