**Eugene Spangenberg, Albert
Uhl, Edward William Pratt**

The Split:

The Split Economy Nimi Wariboko,2020-11-01 Starting with Marx and Freud scholars have attempted to identify the primary ethical challenge of capitalism They have named injustice inequality repression exploitative empires and capitalism s psychic hold over all of us among other ills Nimi Wariboko instead argues that the core ethical problem of capitalism lies in the split nature of the modern economy an economy divided against itself Production is set against finance consumption against saving and the future against the present As the rich enjoy their lifestyle their fellow citizens live in servitude The economy mimics the structure of our human subjectivity as Saint Paul theorizes in Romans 7 the law constitutes the subject as split traversed by negativity The economy is split shot through with a fundamental antagonism This fundamental negativity at the core of the economy disturbs its stability and identity generating its destructive drive The Split Economy develops a robust theoretical framework at the intersection of continental philosophy psychoanalytic theory theology and political economy to reveal a fundamental dynamic at the heart of capitalism **The Electrical Journal** ,1915
