Spirit Of Democratic Capitalism:

The Spirit of Democratic Capitalism Michael Novak, 1982 An American Enterprise Institute Simon Schuster publication Includes bibliographical references and index *The Spirit of Democratic Capitalism* Michael Novak, 2015-05-18 30 years after the release of his ground breaking work *The Spirit of Democratic Capitalism* Michael Novak returns to answer the question of what gives rise to democratic capitalism that intricate blend of commerce and rule of law that encourages peace and global trade This essay is vital to understanding the intangible environment that best inspires human flourishing as it discovers capitalism s essence and uncovers what truly fosters creativity Novak articulates how democratic capitalism works toward creating not just consuming wealth along with encouraging ambition discipline and mutual benefit He explains how critics fail to consider the interaction between the system and the role that economic political and moral liberties play in comprehensive human flourishing This new and exciting work enlivens the connection between the Bible and democratic capitalism by showcasing how seamlessly the dynamic polity fits with the imperatives of human capacity and drive

Reclaiming the Radical Economic Message of Luke David D. M. King, 2022-05-13 No canonical Gospel is more concerned with wealth and poverty than Luke A centuries long debate rages over just how revolutionary Luke s message is This book seeks to recover Luke s radical economic message to place it in its ancient context and to tease out its prophetic implications for today Luke has a radical message of good news for the poor and resistance to wealth God is shown to favor the poor championing their struggle for justice while condemning the rich and recommending a sweeping disposal of wealth for the benefit of the poor This represents a distinct break from the ethics of the Roman Empire and a profound challenge to modern economic systems Generations of interpreters have worked to file down Luke s sharp edges from scribes copying ancient manuscripts to early Christian authors to contemporary scholars Such domestication disfigures the gospel silencing its critique of an economic system whose unremitting drive for profit and economic growth continues to widen the gap between rich and poor while threatening life altering environmental change It is time to reclaim the bracing prophetic call of Luke s economic message that warns against the destructive power of wealth and insists on justice for the poor and marginalized

The American Vision Michael Novak, 1978 Tensions in Christian Ethics Malcolm Brown, 2011-01-01 The book draws on the author s teaching of ethics at undergraduate and postgraduate level for the Cambridge Theological Federation since 2000 Its purpose is to introduce the reader to questions in Christian ethics through a careful examination of the fundamental meta ethical questions posed by the state we re in whether understood as a new phase of modernity or as postmodernity Brown draws on sources and authors from a variety of Christian traditions and from Britain the U S A and Europe The book will be of use not only to university departments and denominational and ecumenical teaching institutions but also as a more general exposition of the current state of ethical thinking in the Christian churches *Contemporary Catholic Political Philosophy* Michael J. Sweeney, Timothy Sean Quinn, 2026-01-08 To date no work exists that addresses these thinkers in this

fashion especially in light of their modern and medieval predecessors While there are indeed studies of contemporary issues addressed within Catholic social thought there are none that specifically address Catholic political philosophy What is unique about this volume is its approach treating primary sources of major contributors to the development of twentieth and twenty first century political thought

In the World, But Not of the World Andrew L. Fitz-Gibbon, 2000-01-01 *In the World But Not of the World* explores the threefold tension among Alasdair MacIntyre s prognosis for Western society the desires of some for a social transformation with a Christian moral vision at the sacred centre and a baptist understanding of Christianity as essentially voluntary non sacralist discipleship Andrew Fitz Gibbon uses five contemporary Christian social thinkers from different traditions as conversation partners Through his examination of these thinkers Fitz Gibbon explores how the church may continue to truthfully narrate the Christian story in the midst of the moral tensions of late capitalist Western society His creative conclusion is that the church at the beginning of the twenty first century can move toward a resolution of the central tension of being in the world but not of the world through a synthesis of the believers church tradition and an affirmation of communitarian liberal democracy

Soul in Society Gary J. Dorrien, 1995 Gary Dorrien s major work addresses the roots of and remedy to the current crisis in American Christian social ethics Focusing on the story of American liberal Protestantism the book examines in fascinating depth the three major movements in this century the Social Gospel Christian Realism and Liberation Theology in a way that also brings African American feminist environmentalist Catholic and other voices into the increasingly multicultural quest Dorrien then carefully assesses the crisis of social Christian thought in a culture that is increasingly secular materialistic and dominated by capitalism He shows how the progressive Christian vision of social and economic democracy can be redeemed in the face of its apparent defeat He argues strongly for a social Christianity faithful to the spiritual reality and kingdom oriented ethic of the way of Christ Dorrien s engaging narrative knowledgeable and fair analysis and thoughtful proposal bring desperately needed clarity and commitment to the Christian social conscience
