**My Incredible Paranormal, Spiritual, and Out of the Box**

**Experiences** Martin K. Ettington, Many of my friends who know me well and know some of my experiences insist I should write an autobiography because many people will find my stories fascinating My life has been about my spiritual and paranormal explorations of the world and studies of our universe These views are discussed in over one hundred books which is detailed near the end of this autobiography These stories include a spirit attacking me many prophecies of mine some of which saved my life Also a fight with a bear in the wilderness and many other strange experiences which includes a spiritual enlightenment event and specific memories from before my birth during and just after it My education as an engineer at a top school has also led me to an analytical point of view about the world but I ve also remained open to new and impossible

experiences without denying that they really happened This has led me to a pretty unique point of view as a writer about many out of the box subjects which some professionals condemn as illusionary but many individuals really experience The experiences of my life in this book should also give you a good idea of the circumstances which created the person I am today and why I write the books that I do I ve grouped my major life experiences mostly sequentially but some things which took place over longer periods of time are grouped together So there is some overlap in different chapters of my life But you can see how all these topics blend together
