center of Montezuma's empire the largest in the Americas The capture of the future Mexico City was more than an extraordinary military event the collision of two long separated worlds radically different in everything from biota to urban planning Spaniards discovered tomatoes chocolate and a city larger and more sophisticated than anything they had ever seen Mexicans discovered horses wheels and lethal germs sparking a cataclysmic century of disease that wiped out a majority of the pre-existing population and led to a unique recombination of European and indigenous cultures The industrial mining of Mexico's silver transformed the wealth and trade of the world Mexico's independence from the Spanish Empire in 1821 led to a calamitous mid-century war with the United States and one of the first great social revolutions that brought peace for Mexicans throughout many of the global horrors of the 20th century before the country itself collapsed into the violence of the cartels and a refugee crisis in the 2000s The history of Mexico has been Gillingham shows one of suffering empire but also of overcoming Through it all the country set new standards for inclusivity for progressive social policies for artistic expression for adroitly balancing dictatorship and democracy While racial divides endured so too did indigenous peoples who enjoyed rights unthinkable in the United States Mexico was among the first countries to abolish slavery in 1829 and Mexicans elected North America's first Black president Vicente Guerrero its only indigenous president Benito Juárez and its only woman president Claudia Sheinbaum As elegantly written as it is powerful in scope rich in character and anecdote Mexico uses the latest research to dazzling effect showing how often Mexico has been a dynamic and vital shaper of world affairs

Transnational Philippines Rocío Ortuño Casanova, Axel Gasquet, 2024-02-27 *Transnational Philippines Cultural Encounters in Philippine Literature in Spanish* approaches literature that has been forgotten or neglected in studies on other literatures in Spanish due in part to the fact that today Spanish is no longer spoken in the Philippines or in Asia However isolation has not always been the case and by omitting Philippine literature in Spanish from the picture of world literatures and Spanish language literatures the landscape of these disciplines is incomplete *Transnational Philippines* studies how this literary production stemmed from its relationship with other cultures literature and arts It attempts to break this literature's isolation and show how it is part of the broad literary system of literature written in Spanish Yet *Transnational Philippines* also questions the constraints of traditional literary genres in order to make room for Philippine texts and other colonial and postcolonial texts so that those texts can be taken into consideration in literary studies Its chapters elaborate on the problems surrounding the cultural and identity relations of the Philippines with other regions and the literary nature of Philippine texts By addressing the need for a postnational approach to Spanish language Philippine literature the book challenges the Spain Latin America dichotomy existing in Spanish language literary studies and leans toward a global conception of the Hispanophone
